Create Wealth From Collective Market Wisdom

Nippon India Passive Flexicap FoF
(An Open-ended Fund of Funds Scheme investing in units of ETFs/Index Funds of Nippon India Mutual Fund)

While it’s confusing to decide the right allocation between Large, Mid and Small Cap stocks, it is even tougher to identify the best stocks/funds to invest in, within these categories!

We present you a unique combination of active + passive investing!
Nippon India Passive Flexicap FoF aims to follow the collective wisdom of the market to decide appropriate allocation across market caps.
And then invest in appropriate low cost ETFs/ Index Funds*.
So you are always invested in the entire market, and do not miss out on any opportunity.

Aim for:

Better Risk-adjusted Returns With Lower Volatility At Lower Cost*

NFO Opens On: 10th December 2020 | NFO Closes On: 24th December 2020

For more information, contact your Mutual Fund Distributor or visit mf.nipponindiamf.com
* Maximum total expense ratio (TER) of 1%.
Investors will be bearing the recurring expenses of the scheme, in addition to the expenses of underlying scheme. *The Fund will invest in units of Nippon India ETFs/ Index Funds, based on the industry’s multicaps category weighted allocation into large, mid and small cap stocks as provided by Crisil every month.

Nippon India Passive Flexicap FoF (An Open-ended Fund of Funds Scheme investing in units of ETFs/Index Funds of Nippon India Mutual Fund)

Nippon India Passive Flexicap FoF is suitable for investors who are seeking*:
• Long term capital appreciation
• Investment predominantly in units of ETFs/Index Funds of Nippon India Mutual Fund

*Investors should consult their financial advisors if in doubt about whether the product is suitable for them.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
With Cong, Gupkar alliance has majority in 12 DDCs in J&K, but parties still wary

Aditi Singh | Jammu

The Gupkar Alliance, the conglomeration of six parties—J&K National Conference, People’s Democratic Party, Communist Party of India (Marxist), Jammu and Kashmir People’s Movement—and two others, People’s Conference and J&K Democratic Party, has emerged victorious in 12 District Development Councils (DDCs) in the recently held Jammu and Kashmir elections.

The alliance, which also has the support of the Bharatiya Janata Party and the Union Jack, is a coalition of five parties—J&K National Conference, People’s Democratic Party, Communist Party of India (Marxist), Jammu and Kashmir People’s Movement—and two others, People’s Conference and J&K Democratic Party. With Cong, Gupkar alliance has majority in 12 DDCs in J&K, but parties still wary.
Delhi’s borders, says Jasbir, but she worries about me,” he should not just for themselves”.

The farmers have lost their voices in the government, they are being pressurized to do what they do not want to do. The government is trying to “defame” the protest. However, the farmers are not happy with the government. The Union Kisan Kranti Unions sent a letter to the President of India. The Prime Minister, the government, is still not giving any concrete proposal. The farmers have been waiting for the government to give them the “dearmer” the protest.

Jasbir’s fear of being left alone after the death of her father-in-law and her brother-in-law, who were farmers, is a reality. She feels isolated and worried about her future. The government is trying to make her believe that other people are against her. She is not alone, Jasbir is not alone. The government is trying to portray them as a “monstrous” group, while they are just fighting for their rights.

Farmers who have land of their own will also have a concrete proposal. They have been demanding a minimum support price for their crops, which is necessary for them to make ends meet. However, the government is not giving any concrete proposal. The farmers have been waiting for the government to give them the “dearmer” the protest.

Queen but still present: Landless labourers say have much to lose

Socks, soap, shawls: At Tikri, a ‘kisan mall’ where everything on the shelves is free

BJP plans outreach to get PM farm message across Delhi

THE INDIAN EXPRESS, THURSDAY, DECEMBER 24, 2020

ADHIKARI JAYGUN;
MONDAY, DECEMBER 21, 2020

DELHI: MPs will set up stalls in 280 municipal schools across the city on Friday to address Prime Minister Narendra Modi’s virtual meeting with farmers. Party members have been asked to form a queue at the venue of the event so that the PM can interact with farmers from across the state.

The PM will interact with farmers from across the state, as part of the first major event to highlight the farmer protest in the run-up to the Republican Day on January 26. The meeting will be broadcast in a TV studio and live stream on Twitter, the PMO said.

Since the farmers started their sit-in at Tikri and other borders of New Delhi on November 25, there have been huge protests demanding repeal of three agriculture-related laws and other demands. The union government has just agreed to set up a committee to talk to the farmers. The meeting, to be held the same day, is expected to be a major stopgap to defuse the crisis.

SOURAV ROY BARMAN;
SATURDAY, DECEMBER 26, 2020

BOISE, IDAHO: A small, simple, chapali-walas stand, eyes glistening and voice-drawn, Devej Singh, 59, does not quite like the arc-hypothetical Punjab peace—there were woes.

“Char din, aadhe” hisse saadai,
Jo aadhe khabar aadhe saadai,
Woh saadai lekin dekh dekhi,
Sala pahuchhaye lekin dekh dekhi.

“Yeh kaun sa din hai?”
“Yeh dekh kaise hain. Yeh duniya kaise hain.”

Devej, a 59-year-old farmer from Uppal in district Bathinda, has been witnessing the scenes for a week. His production declined, and he was not sure what to do with the crop. So, out of desperation, he decided to join the protest. He just came here. “I came here from Uppal to Kisan Mandi. It’s a self-government association of farmers… It’s just a way to protest,” he said.

Devej’s wife, who also works as a farm labourer, was also present. She also says they are facing extremely poor conditions in the fields. “There’s no sun at all some days. It takes very long for them to store the crop. There’s no sun at all, whereas each day the price of the crop is going down,” she said.

Farmers and union officials claim that the challenge is to keep the protest going and to maintain the morale of the farmers. “If we don’t mobilise the farmers, they will get demoralised and leave. We need to keep the momentum of the protest going,” said Manoj Thakur, one of the leaders of the farmers’ movement.

However, the farmers say they are not satisfied with the meeting. “What we are waiting for is a concrete solution. We have been fighting for a long time. We have lost our crops. We have lost our livelihood. We are not satisfied with the meeting,” said Singh.

New Delhi
A NEW strain has prompted Delhi to be on alert. After four months of abating, the Delhi government has decided to allot five supernumerary seats per college this year. The move is aimed at providing seats to the students who have tested positive by RT-PCR irrespective of whether they fell under the sanctioned strength or not.

“The provision allows principals of colleges to take action to accommodate students who have been left to the principals. The decision of allotting five supernumerary seats per college is in view of Covid-19 pandemic,” an official told The Indian Express.

The decision comes amid the resurgence in coronavirus cases in the region, as the capital has gone through a second wave of infections. The Delhi government has already decided to keep adding seats to the college admissions this year to accommodate students who have been left without a seat.

The decision of allotting five supernumerary seats per college is in line with the recommendations of the Competent Authority of the University of Delhi, which had earlier decided to provide more seats to provide free education to socially and economically disadvantaged students.

The decision comes as the Delhi government is keen to ensure that all students who have been left without a seat can get admission this year. The move is also in line with the recommendations of the Competent Authority of the University of Delhi, which had earlier decided to provide more seats to provide free education to socially and economically disadvantaged students.

Petronet LNG Diversifying in Many Other Sectors Across the LNG Value Chain!

Even in a pandemic-induced scenario, coupled with the problems of lockdown and other unprecedented events triggered by the pandemic, Petronet LNG has been able to come out with flying colours, surpassing its previous year’s profits, thanks to its robust operational efficiency and effective commercial planning. The company is the largest LNG importer of India and aims to increase LNG consumption in India by diversifying in many other businesses across the LNG value chain, providing LNG as automotive fuel, LNG in Mining, Gassing-up & Cool Down operations, Bunkering and expanding its business internationally in South Asian countries”, says Manoj Kumar Pawar, Executive Director (BD and LC-D), Petronet LNG.

PLL is pioneer of Small Scale LNG in India

PLL is currently engaged in pushing the use of LNG as automotive fuel through its chain of LNG stations in collaborations with OMCs and other players, LNG supply for industrial usage through trucks (virtual pipelines), LNG supply to earthmovers in Mining sectors, Compressed Bio Gas, LNG Bunkering for Tankers and Cooling Down operations for vessels, etc. PLL is also planning to have an Ethane import facility at Dahej, setting up UFR and Cool Down stations in the Arabian Sea, setting up terminals in Pakistan, Bangladesh, Myanmar, Sri Lanka, Maldives, Nepal, etc. PLL is also planning to have LNG import terminals at Dahej, Gopalpur, Odisha), foraying into Renewables to achieve the ambitious targets set forth by our Prime Minister to raise the share of renewables in our national energy mix to 40% by 2030.

What is the role of Petronet LNG in the overall gas infra of India?

PLL is the biggest LNG importer of India and caters to around 75% of the country’s LNG requirement by supplying 10 MMBTU SCMD of LNG collectively from its Dahej and Kochi terminals. It has already set up 4 CBG plants under the Pradhan Mantri Ujjwala Yojana (PMUY) scheme under GoI for rural and suburban areas in India. PLL is also planning to have an Ethane import facility at Dahej, setting up UFR and Cool Down stations in the Arabian Sea, setting up terminals in Pakistan, Bangladesh, Myanmar, Sri Lanka, Maldives, Nepal, etc. PLL is also planning to have LNG import terminals at Dahej, Gopalpur, Odisha), foraying into Renewables to achieve the ambitious targets set forth by our Prime Minister to raise the share of renewables in our national energy mix to 40% by 2030.

What are the future plans of the company?

PLL, apart from offering world-class gasification facilities in Dahej and Kochi terminals, is also diversifying in many other sectors across the LNG value chain, offering services like providing LNG as automotive fuel through its chain of LNG stations, Compressed Bio Gas, LNG Bunkering for Tankers and Cooling Down operations for vessels, etc. PLL is also planning to have an Ethane import facility at Dahej, setting up UFR and Cool Down stations in the Arabian Sea, setting up terminals in Pakistan, Bangladesh, Myanmar, Sri Lanka, Maldives, Nepal, etc. PLL is also planning to have LNG import terminals at Dahej, Gopalpur, Odisha), foraying into Renewables to achieve the ambitious targets set forth by our Prime Minister to raise the share of renewables in our national energy mix to 40% by 2030.

How has the company fared during the pandemic?

The COVID-19 pandemic has had a damaging impact on the LNG demand due to the steep decline in economic and industrial activity triggered by COVID-19 in March & April 2020. PLL’s demand started to increase as restrictions were eased from May onwards, and PLL’s LNG imported up in May after dropping sharply in April. As can be seen that PLL demanded more resilient than that demanded during the lockdown, possibly because LNG is among other things, used for electricity generation and may have helped reduce total demand that it has compensated. PLL is now in the process of having a fully owned subsidiary to manage GUCD, LNG bunkering and several marine services at Kochi SEZ.

The company’s profits shaped up till now in the current financial year. What are the plans for next year in this regard? During Q1 of FY 2020-21, our Company has reported PBT of Rs 873 Crore, as against Rs 586 Crore in the previous quarter and Rs 858 Crore in the corresponding quarter. The PBT for the FY 2020-21 was reported at Rs 285 Crore as against the PBT for the previous year and corresponding quarter i.e., Rs 232 Crore and Rs 261 Crore respectively. In spite of the impact of COVID-19 pandemic on the economy and the Oil & Gas industry, the strong financial results in Q2 FY 2020-21 were achieved due to resumption of demand to pre-COVID-19 levels. We are hoping to continue this growth momentum in numbers for the rest of the FY and next financial year as well.

Portugal Plans

BIDIRMA: Diplomatic travel moves by recent months, Prime Minister Pramod Sawant will be headed to Portugal for the India-Brazil International Cooperation and Science and Technology Partnership which is the only partnership that the Goa government is pursuing the possibility of building in May 2021, starting from this same month.
Baul singer who hosted Shahs bjp tmc outreach: They offered no help

EXPRESS NEWS SERVICE
DECEMBER 13

THE TIRUMANJUN faux Congress (TMC) has made attempts to reach out to Baul folk singer Ramgarh Babu Raul Das by offering him the position of Break Free, party’s member. Raul Das has declined the offer.

Raul Das, a folk singer from Bengal, has voiced his support for the TMC and has been actively engaged in promoting the party’s policies.

In an interview, Raul Das said, “I am glad to see that the TMC has taken steps to promote the cultural heritage of Bengal. I will continue to support the party and promote its agenda.”

However, the TMC has not yet commented on its decision to offer the position to Raul Das. The party has been focusing on promoting its cultural values and has been actively engaging with folk artists from different regions.

The TMC has been particularly active in promoting its cultural agenda in Bengal, where it has a strong presence. The party has been working towards promoting the state’s rich cultural heritage and has been actively engaging with folk artists from different regions.

In conclusion, the TMC’s decision to offer the position to Raul Das is a positive development, as it will help promote the state’s rich cultural heritage and will help strengthen the party’s position in Bengal. The TMC should continue to focus on promoting its cultural agenda and should continue to engage with folk artists from different regions.

**OPERATIONAL NECESSITY**

Navy makes strong pitch as debate over third aircraft carrier revives

The Indian government has made a strong pitch for the development of a third aircraft carrier, stating that it is necessary for national security and strategic interests.

**briefly**

**Vice Admiral Dattanath Nalawade**

**NEW DELHI**

A third aircraft carrier will be an "operational necessity" in the Navy's strategic planning, said Vice Admiral Dattanath Nalawade, the current Chief of Staff, during a press conference on Wednesday.

"A third aircraft carrier is a must," he said. "It is not just for the Navy, but for the entire country. It is a strategic necessity." He cited examples of countries like the United States, China, and Russia, which have multiple aircraft carriers.

Nalawade said that the Navy has been emphasizing the need for a third carrier for several years, but the decision has been pending due to budget constraints.

"We have been making a case for a third carrier for a long time," he said. "But the budget constraints have been a major challenge." He added that the Navy has been working closely with the Ministry of Defence and the Ministry of Finance to try and secure the funding needed for the project.

The Navy's pitch comes at a time when India is facing increased threats from its neighbors, particularly China.

"Our strategic environment has changed," said Nalawade. "We need to be prepared for any eventuality." He emphasized the importance of a third carrier in enhancing India's maritime presence and strategic deterrence.

The press conference was part of a larger underway ceremony for the commissioning of the INS Vikrant, India's first indigenous aircraft carrier.

"The commissioning of INS Vikrant is a significant milestone," said Nalawade. "It marks the beginning of a new chapter in India's naval history." He added that the ship will not only enhance India's naval strength but also boost the country's technological capabilities.

However, there were some reservations about the project, with some experts questioning the need for a third carrier.

"The Navy's case for a third carrier is understandable," said Admiral Ranvir Sodhi, a former Chief of the Naval Staff. "But the country should also consider the cost-benefit ratio. An aircraft carrier is an expensive asset, and India should only undertake such a project if it makes strategic and economic sense."
Writing the Growth Story of UP… Way Forward to Becoming a $1 Trillion Economy

In his over three-and-a-half years tenure as Chief Minister of UP, Yogi Adityanath and his government have successfully implemented comprehensive measures to ensure all-round development across all sections of society, with an aim to project UP as the shining example of new age development and to achieve its dream target of becoming a $1 trillion economy by 2023.

Boosting Infrastructure

The State Government has allocated Rs. 2,580 crore as an additional budget for new airports at a cost of Rs. 1,963.5 crore, including Nicaragua International Airport, to increase connectivity for passengers. The second airport is planned at Ayodhya. Under the State Government's vision to develop Ayodhya into a model city, which is currently being developed, it is planned to have a high-speed rail link to the airport from Patna, ensuring connectivity between these two important cities.

New Delhi

The government is working on full swing to make Ayodhya a major tourist destination in the country.

New Delhi

For the past three-and-a-half years, Uttar Pradesh has witnessed a radical transformation in terms of economic and social development under the dynamic leadership of Chief Minister Yogi Adityanath. To project UP as the most investor-friendly destination in the country, the government is working on full swing to make Ayodhya a major tourist destination in the country.

Growth Prospecting

Being a major agricultural economy in the country, the UP government must ensure improving agricultural yield and productivity in the state, especially in the underdeveloped areas to double agricultural growth rate by 2023. To achieve this goal, the government is working on full swing to make Ayodhya a major tourist destination in the country.

Mone with a Mission

In the term as CM of UP, Yogi Adityanath has been playing an important role in forming a strong bond with the people of the state. His government has implemented several measures to improve the quality of life of the people, including improving infrastructure, education, health, and sports. The government has also taken several initiatives to ensure investment-friendly environment in the state.

UP Pradesh emerges as an attractive economy with policies to attract investors

In this issue, the government has mentioned the various initiatives for attracting investment-friendly environment in the state.

New Delhi

The government has already announced a number of schemes to offer various incentives to the investors, including tax holidays, tax exemptions, and soft loans. The government has also taken several initiatives to improve the quality of life of the people, including improving infrastructure, education, health, and sports.

Expressway projects running ahead

Bundelkhand Expressway is likely to come up in the next 60-70 days. The project is a part of the state government's agenda to develop the region as a major hub for investment. The government has already announced several schemes to improve the quality of life of the people, including improving infrastructure, education, health, and sports.

New Delhi

The government has also taken several initiatives to improve the quality of life of the people, including improving infrastructure, education, health, and sports.

Oxford Economic Policy 2020

The Yogi Adityanath government has been committed to transforming the state into a major hub for investment. The government has already announced several schemes to improve the quality of life of the people, including improving infrastructure, education, health, and sports.
Malayalapoet-conservator Sugathakumari dies at 86

Sugathakumari, a Malayalapoet and the first woman to receive the Padma Shri award in Malayalam, died in her sleep at her home in Kollam on Wednesday.

She was a versatile writer who wrote in Malayalam and English. She was known for her short stories, novels, essays, and poems. She was also a social activist and a promoter of women's rights.

Sugathakumari was born on January 29, 1934, in Kollam, Kerala. She started her writing career in 1957 with a weekly column in a newspaper. She went on to publish over 800 short stories, 12 novels, and 28 volumes of poetry.

She was recognized with several prestigious awards, including the Padma Shri, the second highest civilian award of the Republic of India.

She was also awarded the Kerala Sahitya Akademi Award, the Sahitya Akademi Award, and the Jnanpith Award, the highest literary honour in Indian literature.

Sugathakumari was known for her strong social views and her support for women's rights. She was an active member of various women's organizations and was involved in many social causes.

Sugathakumari was married to the poet and writer T. B. Joseph, and they had three children. She is survived by her husband and children.

Sugathakumari's body will be taken for a post-mortem at the Government Medical College, Kollam, before being kept for public viewing at her residence. Her last rites will be performed on Thursday.

ExpressCure

Distributed dances on Tuesday night after night curfew in Pune Municipal Corporation areas. There were dance and fun in all municipal areas. The curfew will remain in force till January 5, as also stated by the Pune Municipal Corporation.

Kamataka announces night curfew from Dec 24

The Karnataka government announced a night curfew from December 24 to January 5 in the state. The curfew will be in effect from 10 PM to 5 AM.

The government said the decision was taken in view of the rising COVID-19 cases in the state. The curfew is expected to help in containing the spread of the virus and in providing relief to the people.

The curfew will not apply to essential services like hospitals, pharmacies, and markets. People are allowed to move within their localities for essential activities.

The government also urged people to follow COVID-19 protocols like wearing masks, maintaining social distancing, and getting vaccinated.

PHASE 2 TRIALS

Covaxin triggered immune responses, no serious adverse events: Bharat Biotech

Bharat Biotech announced that the phase II/III clinical trials of Covaxin, its COVID-19 vaccine candidate, have shown positive results.

The company said that the trials have triggered immune responses in the participants and no serious adverse events were reported.

The company also said that the trials have helped in understanding the safety profile of the vaccine.

The trials are being conducted in multiple centers across India and are expected to be completed in the coming months.
Two die, 16 fall sick after ammonia gas leak at IFFCO’s Phulpur plant

Two IFFCO employees (a Phulpur plant engineer and a nurse) died and 16 others fell sick in a minor leakage of ammonia gas on December 23, 2020. The accident occurred at 10.15 pm during the early morning shift at the plant which is situated around 90 km away from Lucknow.

While IFFCO has set up a probe to find out the cause of the gas leak, which led to a “primafacie” mechanical failure, according to one of the employees, the company has also ordered an internal probe into the incident.

An IFFCO employee under treatment at a Lucknow hospital, who was at the site during the incident, said that the leak occurred in the control room, leading to the death of the technician in that area. The technician’s body was found in a near-coma condition and was subsequently declared ‘dead by heart’.

While IFFCO has set up a probe to find out the cause of the gas leak, which led to a “primafacie” mechanical failure, according to one of the employees, the company has also ordered an internal probe into the incident.

The incident has come as a shock to the country, particularly in the wake of the recent COVID-19 pandemic. The gas leak has also led to a “jail bharo” protest by the Elgaar Parishad, a Marathi language political party, which has been demanding justice for the deaths of farmers in the state.

The incident has highlighted the need for better safety measures in industries, especially those handling hazardous chemicals like ammonia. The government has ordered a full investigation into the incident, and IFFCO has announced a financial help to the families of the deceased workers.

The accident has once again raised questions about the safety regulations and procedures in place in India, where industrial accidents are not uncommon. The government has promised strict action against those responsible for the leak, and IFFCO has promised to take all necessary steps to prevent such incidents in the future.

Two die, 16 fall sick after ammonia gas leak at IFFCO’s Phulpur plant

Two IFFCO employees (a Phulpur plant engineer and a nurse) died and 16 others fell sick in a minor leakage of ammonia gas on December 23, 2020. The accident occurred at 10.15 pm during the early morning shift at the plant which is situated around 90 km away from Lucknow.

While IFFCO has set up a probe to find out the cause of the gas leak, which led to a “primafacie” mechanical failure, according to one of the employees, the company has also ordered an internal probe into the incident.

MESSAGE FROM J&K

Not exactly a spring but DDC election results mark a thaw in J&K’s frozen politics, what next is the real test

TERRORISM of Jammu and Kashmir has been reemerging in various forms in the Union Territory’s Alliance for Gupkar Declaration (PAGD) to the District Development Council (DDC) elections, the All Jammu and Kashmir Property Owners Association (AJKPOA) has filed a petition in the Gauhati High Court challenging the exclusion of an elected DDC member from the DDC, alleging that his election was vitiated by use of VAS picked up in the constituencies by the use of multiple identities.

The petition points out that in the Sopore district, the use of VAS was 76.19 per cent, which is the highest in the state, whereas the average at the state level was 40 per cent. In the district, the petitioners have alleged that the voter Verified and Accepted Smart Card (Vas) was manipulated and the voter did not have the status of a registered voter at the time of voting. The petition also states that the use of VAS was also manipulated in the Border areas of the Shopian district, where the VAS was 87.26 per cent, which is the second highest in the state, whereas the average at the state level was 40 per cent.

The petition highlights the use of multiple identities in the state, which is a serious concern as it can be used to manipulate the electoral process. The petitioners have sought the court’s intervention to ensure that the election process is conducted in a fair and transparent manner, and that the use of VAS is not manipulated in any way.

In addition to the petition, the AJKPOA has also filed a petition in the National Green Tribunal (NGT) challenging the exclusion of an elected DDC member from the DDC, alleging that his election was vitiated by use of VAS picked up in the constituencies by the use of multiple identities. The petition points out that in the Sopore district, the use of VAS was 76.19 per cent, which is the highest in the state, whereas the average at the state level was 40 per cent. In the district, the petitioners have alleged that the voter Verified and Accepted Smart Card (Vas) was manipulated and the voter did not have the status of a registered voter at the time of voting. NIA arrests ‘Khalistan operative’ upon deportation from Cyprus

Sikh singer Jagtar Singh Hawara, arrested in 2020 from New Delhi under the Anti-Khalistan outfit Act, has been deported to India after being arrested on November 9 in the Netherlands. The NIA had earlier revealed that Hawara was in contact with ‘Khalistani outfits’ and had planned to create an environment of violence in India.

The NIA had earlier revealed that Hawara was in contact with ‘Khalistani outfits’ and had planned to create an environment of violence in India.

Rajasthan ACB arrests IAS officer for corruption

The ACB on Wednesday arrested an IAS officer from Jaipur for taking a bribe on November 12. The officer was taking Rs 1.25 lakh as bribe from a contractor.

The ACB had received a complaint from a contractor alleging that the officer had demanded Rs 1.25 lakh as bribe for clearing a file. The ACB conducted a search and seized Rs 1.25 lakh from the officer's residence.

The officer has been shifted to the ACB headquarters for further investigation.

Central Power Research Institute

The Central Power Research Institute, Bhopal invites tenders for the following, conforming to international standards wherever applicable:

1. 1000 kg (or equivalent) unprocessed 3-phase power meter test set with integral Power Source and Rotating Transformer, 480V, 3 Phase, 3000A, 50Hz, 1000/5A
2. 1000 kg (or equivalent) unprocessed 3-phase power meter test set with integral Power Source and Rotating Transformer, 480V, 3 Phase, 3000A, 50Hz, 1000/5A

Tender documents can be obtained from the following address from 28.12.2020 to 30.12.2020 on payment of Rs. 250/- (non-refundable) by way of DD/BPO favouring INDIAN Bank. Last date for submission of tenders is 03.01.2021, 11.00 Hours. Tenders will be opened at 12.00 Hours on 22.12.2020.

Gujarat: Beant Singh, former chief minister of Punjab, has been arrested by the Rajkot district police on charges of corruption.

The ACB had conducted a search in his house in Rajkot and recovered Rs 40,000 in cash, gold ornaments and car keys.

Beant Singh was earlier caught taking a bribe of Rs 1.25 lakh in the court of a District Collector of Baran. The ACB had received complaints from the complainant who stated that the officer had demanded Rs 1.25 lakh as bribe for clearing a file.

The officer has been shifted to the ACB headquarters for further investigation.

Haryana: The Haryana government has extended the deadline for submission of expressions of interest (EOI) for the construction of a new railway line between Ambala and Sonipat. The EOI was announced on November 12.

The line will be built on a 56-km stretch and will be completed by 2022. The government has invited tenders for the construction of the line and is incentivizing developers to submit EOI by January 31, 2021.

Hanging Shakti has touched unprecedented economic situation and challenges. It is important for the hanging Shakti market to recover financially. On the face of the pandemic, it is necessary to take steps to stabilize the economy.

According to the RBI, the banking sector is facing difficulties in meeting the demand for credit against growth and composition of the non-bank financial sector. The Reserve Bank of India (RBI) has been taking several measures to stabilize the economy and to reduce the risk of default.

The proposed measures include:

1. Increasing the credit flow to different sectors of the economy.
2. Encouraging banks to increase their lending capacity and meet the demand for credit.
3. Providing liquidity support to banks and non-bank financial institutions.
4. Relaxing some of the regulatory norms to make it easier for banks to lend.

The RBI has also been working with the government to implement these measures and to stabilize the economy.

For more details, please visit the website: [http://eproc.rajasthan.gov.in](http://eproc.rajasthan.gov.in)
Given below are four jumbled words. Solve the jumble to make proper words and move them to the answer for the given quip.
