ers, including the three farmlaws, would have to be based on "director, sales and marketing, shared mobility," Tarun Garg, director of the National Agency (MHRA) is also considering the creation of a new regulatory body. The Indian express has learnt that the MHRA is still under investigation, though officials have confirmed that the government is working to resolve the "feedback issues" raised by the society.

Kerala

Allegations that the three farmlaws, including the one that aims to replace the existing laws, will come up for discussion on July 31, 2021, the country's highest court, the Supreme Court, has postponed the hearing to a later date. The court had earlier scheduled the hearing for July 30, 2021, but the hearing has been postponed due to the ongoing COVID-19 pandemic.

There are records of several meetings held between the three farmers' groups and the government, but the details of these meetings have not been made public.

The government has also introduced a new bill in Parliament, the "National Agriculture (Amendment) Bill, 2021," which seeks to relax some of the provisions of the existing laws and introduce changes in the way farming is done in the country.

Rajasthan killings

During "interrogation of the accused," Shalim and Bilal Ahmed were "questioned," according to the police. During the interrogation, the accused said they told the accused to "find the truth." The police said they had asked the accused to "find the truth," and the accused had admitted to the crime.

 Era’s Lucknow Medical College & Hospital

LOWEST COVID MORTALITY, HIGHEST RECOVERY

“Up to a good state in general and Lucknow in particular has benefited a lot from Era’s efforts. A specialised institution like Era’s can contribute a lot to the healthcare. Its contributions towards Telemedicine are noteworthy that will help the difficult areas in the state to benefit from the outreach and technology-led healthcare,”

Sameer Kochhar, Chairman, SKOCH Group

A highly trained and elevated facility supports Era’s Lucknow Medical College & Hospital (ELMC&H), where the 850-bed multi-specialty hospital is fully equipped with advanced, world-class diagnostic and therapeutic equipment. For nearly two decades, the institution has been functioning as a Centre of Excellence in medical education, healthcare, training and research. ELMCH is a private medical college and is affiliated with ERA University.

In the wake of COVID outbreak, Era’s initiated a ramp up of the existing infrastructure to prepare for handling emerging cases. It included, some initial guidelines for the medical and support staff. Soon there were central government guidelines and the allotted 850 beds and allocated additional manpower, set up isolation wards, deployed new equipment and assessed the inventory. For these needing emergency medical care, hybrid facilities were created.

ELMC&H, in collaboration with Era’s Medical Doctors, stepped up the development of patient care equipment with the objective of upgrading COVID19 patient management, while ensuring safety of healthcare workers.

A Tele-OPD was started to provide medical guidance to patients. One dedicated Tele-OPD was also set up for stress management counselling for both admitted patients and their attendants and hospital staff

**Problem**
- Ramping up existing infrastructure
- Set up dedicated Tele-OPD
- Centralised Patient Monitoring system
- Adjustment of duty rosters for medical and support staff
- Guidelines compliance
- Ramping up infrastructure, setting up Teledmedicine centre
- Protocols for stress management for staff and COVID patients
- Limited availability of PPE kits

**Process**
- New SoPs were formulated, operational plans of all departments were supervised and enforced on a war footing and numerous supervisory committees were formed.
- For the purpose of real-time remote monitoring, a Centralised Patient Monitoring System (CPMS) was set up to provide doctors with a live display of all critical patients’ vital parameters on computer systems anywhere across campus and on the smartphones.
- A team of doctors was deployed for round the clock monitoring of this dashboard. The ICU Nursing Pod was used for giving CPR to infected patients thereby minimising the risk of exposure to higher viral loads.
- New SoPs were formulated, operational plans of all departments were supervised and enforced.

**Solution**
- Daily group counselling by psychologists
- Nearly 3,000 patients discharged after recovery
- Level 3 COVID facility, successfully carried out deliveries, dialysis etc
- More than 1,500 doctors and support staff worked in shifts
- More than 5,500 Telemedicine consultations
- Conducted clinical trials of antiviral drugs
- Recovery rate more than 96%

**Outcomes**
- Daily group counselling by psychologists
- Nearly 3,000 patients discharged after recovery
- Level 3 COVID facility, successfully carried out deliveries, dialysis etc
- More than 1,500 doctors and support staff worked in shifts
- More than 5,500 Telemedicine consultations
- Conducted clinical trials of antiviral drugs
- Recovery rate more than 96%

**We are a leading L-3 facility with the maximum number of patients in the state of Uttar Pradesh. Era’s effective treatment has resulted in a recovery rate of more than 96%; and, a mortality rate of 3.7%, which for an L-3 facility is the lowest in the state and perhaps in the country. We are thankful to SKOCH for recognising our feat.**

Zaw Ali Khan, Additional Director, ELMCH

**ERA’S LUCKNOW MEDICAL COLLEGE & HOSPITAL**

Firstly, you can now vote for Era’s Lucknow Medical College & Hospital as a Centre of Excellence in medical education, healthcare, training and research. This recognition will help the hospital further strengthen its infrastructure and services, ensuring high-quality healthcare for all.

Would you like to support Era’s Lucknow Medical College & Hospital in their mission to provide excellent healthcare to the community?

**ARE YOU INDIA’S NEXT BEST HEALTH SERVICE PROVIDER?**

You Stared COVID-19 in the Face and gave a befitting reply. You can now win India’s Honest Independent Honour

Professionals, Institutions, Doctors as well as front-line workers from the Healthcare sector have been in a hand-to-hand combat with COVID-19. These are the Heroes who put their own person, their lives and their families at peril to serve India. They have been backed by Governments, Insurance Companies and Pharma Industry. A few out of these are remarkable tales of Patriotism, Heroism, Innovation and sheer determination and loyalty to the profession.

We seek to Document, Highlight and Award these initiatives – whether Personal or Institutional.

Launching driverless train, PM hails move to ‘smart systems’

ON MAGENTA LINE

New Delhi, December 28

New Delhi: Prime Minister Narendra Modi here today launched the Magenta Line of the Delhi Metro, the 10th line of the metro network, approximately 29.8 km in length, with 21 stations. The line’s inauguration was part of the larger Metro rail project, which aims to extend the city’s metro network and reduce traffic congestion.

The Prime Minister said the launch of the Magenta Line is a significant milestone in the development of Delhi. He added that the metro system has played a crucial role in improving connectivity and reducing travel time for residents of the city.

The Magenta Line is expected to reduce the travel time between the farthest stations from approximately 90 minutes to just 45 minutes. The Prime Minister said it will significantly reduce traffic congestion in the city, reducing emissions and improving the quality of life for residents.

The Prime Minister also mentioned that the Delhi Metro is the largest metro network in the world, with a total length of over 500 km. He added that the metro system has become a symbol of progress and development in the city.

The Prime Minister also highlighted the role of the metro system in reducing pollution in the city. He said that the metro system helps reduce the number of private vehicles on the roads, reducing emissions and improving air quality.

The Prime Minister also mentioned the importance of the metro system in improving accessibility for people with disabilities. He said that the metro system is designed to be accessible for people with disabilities, with ramps and elevators at stations and trains.

The Prime Minister also mentioned the role of the metro system in reducing crime in the city. He said that the metro system is secure and has been designed with safety in mind.

The Prime Minister also mentioned the role of the metro system in reducing traffic congestion. He said that the metro system has helped reduce traffic congestion in the city, with more people choosing to use the metro instead of private vehicles.

The Prime Minister also mentioned the role of the metro system in reducing the cost of living for residents of the city. He said that the metro system reduces the cost of commuting for residents, with lower fares compared to private vehicles.

The Prime Minister also mentioned the role of the metro system in improving the city’s image. He said that the metro system has been recognized globally as a symbol of progress and development in the city.

The Prime Minister also mentioned the role of the metro system in improving the city’s economy. He said that the metro system has helped attract investments to the city, with more businesses choosing to locate in areas near the metro stations.

The Prime Minister also mentioned the role of the metro system in improving the city’s environment. He said that the metro system helps reduce the number of private vehicles on the roads, reducing emissions and improving air quality.

The Prime Minister also mentioned the role of the metro system in improving the city’s culture. He said that the metro system helps promote cultural exchange and understanding, with residents from different parts of the city using the metro to visit each other.

The Prime Minister also mentioned the role of the metro system in improving the city’s education. He said that the metro system helps reduce travel time for students, with more students choosing to use the metro to get to school.

The Prime Minister also mentioned the role of the metro system in improving the city’s health. He said that the metro system helps reduce travel time for medical professionals, with more medical professionals choosing to use the metro to get to work.

The Prime Minister also mentioned the role of the metro system in improving the city’s tourism. He said that the metro system helps promote tourism, with more tourists choosing to use the metro to explore the city.

The Prime Minister also mentioned the role of the metro system in improving the city’s sports. He said that the metro system helps reduce travel time for athletes, with more athletes choosing to use the metro to get to their training sessions and matches.

Birthday Highlights

With Congress president Sonia Gandhi attending, a public event and former party leader Rahul Gandhi out of the country, the party’s 136th foundation day on Monday was marked by a series of farmer protests. Congress vice-president Unni Mehta, who has celebrated his 80th birthday on Monday, attributed the protests to the government’s unwillingness to listen to the farmers. In another development, Congress leader Sunanda Pushkar, who was the wife of Jyotiraditya Scindia, passed away in New Delhi on Friday. She was 45.

Namami Gange - the rejuvenation of River Ganga

Rivers are the lifelines of life, and the Ganga is no exception. The Indian government, recognizing the ecological importance and cultural heritage of the Ganga, launched the Namami Gange programme. This initiative focuses on improving the quality of the Ganga river by eliminating pollution and promoting sustainable practices.

**Public Spaces:** River water fronts have the potential to be attractive recreational and cultural hubs. The urban population has already started using these areas. If properly maintained, they can become central to the urban planning. To prevent sewerage entering into the river, a Ganga Museum has been developed.

**Afforestation and Biodiversity:** In Uttarakhand, the mangroves and reeds along the Ganga river provide shelter to millions of fish and birds. The river has now become a sanctuary for aquatic life.

**Organic Farming:** Nirmal Ganga, Jan Ganga, and Gyan Ganga are the four categories under the Namami Gange programme. Among these, organic farming is a key component. It not only reduces the use of chemical fertilizers and pesticides but also helps in the conservation of biodiversity.

**The State of Art:** The sewage treatment plants (STPs) have been constructed in various locations along the Ganga river. The STPs have been designed to treat large volumes of sewage efficiently.

**The Results:** The results of Namami Gange's efforts have started appearing on the river. The water quality has improved, and the river has become cleaner. The Ganga has also been declared as a National Water Lloyd.

**Devolves:** From all around the world, converged at Prayagraj Kumbh Mela. The confluence of three sacred rivers - the Ganga, the Yamuna, and the mythical Saraswati, is a sight to behold. The Ganga has been transformed into a river that is clean, safe, and a source of pride for the nation. The Namami Gange programme has been a success story of environmental conservation and sustainable development.

Key accused in BJP leader’s murder says Cong MLA’s brother ‘ordered’ killing: police

DRAUGHT UNDER THE MID-DAY MEAL SCHEME

Keep in mind the health and nutritional needs of the children, a dry ration kit will be given to all children until schools reopen. Parents of students studying in Delhi government schools and government-aided schools may avail the facility of Mid-Day Meal scheme by collecting dry ration kits from schools on any working day.

EXPRESS NEWS SERVICE

LONDON, DEC 28

The SEWUJ’s Long march against the police, including raids on government office, was thwarted. Before the march, its leaders have staged a protest in front of the Police Headquaters in New Delhi, demanding immediate implementation of the two police pension schemes announced by the government.

Students at Atyodhya college

Several students were booked for sedition charges.

The police said that the number of protesters eventually grew to 400. The protesters were arrested after they had poketted some of the police and were then taken to the police station.

Atma Nirbhar-Madhya Pradesh -Roadmap 2023

Physical Infrastructure | Good Governance | Health and Education | Economy and Employment

Shri Shivraj Singh Chouhan, Chief Minister, Madhya Pradesh

Madhya Pradesh determined to realise the dream of Atmanirbhar Bharat

For any developing country, it is important to have a strong local economy. In our case, it becomes essential for every Indian state to focus on strengthening their local economy by providing opportunities for growth and competition.

Good Governance

The Government of Madhya Pradesh is determined to realise the dream of Atmanirbhar Bharat. The focus of the Shivraj Singh Chouhan Government will be on improving public service delivery. It will be done through the introduction of e-governance, increasing opportunities for growth and competition, and making the state a model for other states. The Government will be empowering its citizens by improving public service delivery. It will be done through the introduction of e-governance, increasing opportunities for growth and competition, and making the state a model for other states.

Promotion of monsoon tourism through “Buffer mein Sagar” initiative.

Automation of all Toll plaza in the state & implementation of FASTag.

Development of Multi-Modal Logistic Hubs to transform Madhya Pradesh as the Transport & Logistics hub of the nation.

Promotion of Rural Tourism and Tribal Tourism.

Housing for Urban Poor: Delivery of 3 lakhs EWS units in 378 cities.

Installation of LED street lights in 100 cities through ESCO/ PPP model.

Revive Urban economy through urban planning

Implementation of TOD & TDR in 5 cities

Linking of 1,50,000 poor families in Self Help Groups

EARN CARDS in coming 3 years.

Narmada Projects in coming 3 years.

Reduction MMR (per 1 lakh live birth) from 173 to 100, IMR (per 1000 live births) from 40 to 35, RMR from 35 to 25 and FPIR to 2.1 by December 2024

Strengthening & upgradation of health and education facilities.

Health and Education

To strengthen the Health and Education sector in the state, numerous recommendations have been proposed and many have been designed under the Atma Nirbhar Madhya Pradesh.

Atmanirbhar Bharat

Under the Act, the establishment of Public Services Guarantee Centres or Lok Seva Kendras in the state was an important step towards the service delivery system. The Government will develop a single portal for Public Services Guarantee Centres.

To improve the Health and Education sector, the State Government will be focusing on strengthening the Health & Education sector in the state. The focus will be on improving public service delivery, reducing MMR (per 1 lakh live birth) from 173 to 100, IMR (per 1000 live births) from 40 to 35, RMR from 35 to 25 and FPIR to 2.1 by December 2024. The Government will be empowering its citizens by improving public service delivery.

Economy and Employment

Jill Loughlin released after prison term in college scam

WASHINGTON, DC (Reuters) - Loughlin, a star of the television series "Full House" famous for her role as " DJ," was released on Wednesday after serving nearly three months for her role in a college admissions bribery scandal. She was held at an unspecified location in New York before being brought to a prison in Philadelphia.

Loughlin, along with her fashion designer husband, Mossimo Giannulli, were sentenced to 11 months and five months in prison respectively for paying bribes to have their daughters admitted to the University of Southern California as recruits in the school's crew team.

The couple, who are now aged 56 and 55, had been due to report to prison in February, but their release was delayed due to the pandemic. It is not clear whether they will be serving their time at separate institutions.

Novavax's Covid vaccine to be studied in the US

WASHINGTON (Reuters) - The FDA, the US regulator, is expected to authorize Novavax's coronavirus vaccine this week, clearing the way for it to be used in the United States after the company announced positive trial results.

The vaccine, which is based on a plant cell system, is expected to be authorized for emergency use by the FDA on Monday, following a review of data that showed it was 90.4% effective and well tolerated in a trial involving more than 20,000 people worldwide.

The authorization would allow Novavax to begin distribution of the vaccine, which is expected to be produced at a rate of 100 million doses per week by the end of the year.

The move comes after the FDA authorized the Pfizer and Moderna vaccines earlier this year, setting off a race to supply enough doses to immunize the US population.

Novavax's vaccine is considered a strong candidate for use in the US, as it is easier to store and transport than the other vaccines, which require ultra-cold temperatures and can be challenging to ship.

The FDA's authorization is expected to be followed by a similar move by the US Centers for Disease Control and Prevention (CDC), which will then make a recommendation on how the vaccine should be administered.

The authorization is a significant milestone for Novavax, which has struggled to gain traction in the vaccine market despite promising trial results.

The company's shares shot up more than 50% on Tuesday after the announcement of the results, indicating strong investor confidence in the vaccine's potential.

The vaccine is expected to be available for use in the US in the coming weeks, with the first doses likely to be distributed to healthcare workers and elderly people.

Novavax recently reported that its vaccine is 89% effective in preventing symptomatic Covid-19 in a trial involving nearly 20,000 participants.

The company's vaccine is based on a plant cell system, which is easier to manufacture than the mRNA technology used by Pfizer and Moderna, and does not require ultra-cold storage.

The vaccine is expected to be produced at a rate of 100 million doses per week by the end of the year.

The approval by the FDA and CDC is expected to pave the way for wide distribution of the vaccine, which is expected to be free for all US residents.

The vaccine is expected to be available for use in the US in the coming weeks, with the first doses likely to be distributed to healthcare workers and elderly people.

Novavax's vaccine is expected to be available for use in the US in the coming weeks, with the first doses likely to be distributed to healthcare workers and elderly people.
Jharkhand: Many schemes set to announced today as Soren govt turns one

ADHISH ANGAD	JANUARY 26, 2021

JHARKHAND Chief Minister Hemant Soren sets to announce several schemes at a press conference on Tuesday. The schemes are likely to be in the fields of employment, education, health, and infrastructure.

**WHAT THE CARMA POOCHA WAS GETTING AT?**

In November 2019, the Finance Ministry submitted its annual report, which included a statement on “some important aspects of the Centre’s budgetary position.”

The Centre’s actions since then suggest that it is not enough to just provide incentives to states to implement the “one country, one market” policy. The Centre also needs to consider the impact of state policies on the overall economy. The Centre must also ensure that the states implement the policy in a consistent manner.

WHY ATMANIRBHARTAIN
HYPOCRISY AND THE ANGLOSHERE—OR the world of English-speaking nations. It is where many of us have our naivenostalgia for a long-lost empire. But with the EU, the Anglosphere is now likely to acquire some gravitas in British foreign policy. It could serve as a reminder to India's colonial past. But if Delhi looks to the Anglosphere for economic and strategic collaboration with India's colonial past overwhem its current economic and strategic interests, some areastics with the Anglosphere.

The contemporary debate on the Anglosphere encompasses several ideas. One is that the Anglosphere is composed of a closed market that Brussels was building. Another is that the Anglosphere is composed of a parliamentary system of government, which the British Empire had brought to India. Yet, if the British Empire had brought the parliamentary system to India, it also passed onto the Commonwealth and Britain's former colonies.

As an empirical argument, the Anglosphere is composed of a closed market that Brussels was building. It is eventually closed to the UK and other nations within the EU that are not members of the Anglosphere. However, even if Anglosphere countries can trade with each other, they cannot trade with the rest of the world. In contrast, the intergovernmental system of the Commonwealth is composed of a parliamentary system of government, which the British Empire had brought to India. Yet, if the British Empire had brought the parliamentary system to India, it also passed onto the Commonwealth and Britain's former colonies.

State will buy Nagarjuna plant if Centre’s plan still on, says Baghel

GARGI VERMA | DEC 12, 2021

CHHATTISGARH Chief Minister Bhupesh Baghel said on Tuesday that the state government will buy the Nagarjuna plant if the Centre’s plan is still on. The statement came after the Nagarjuna steel plant, the state-run plant in Raigarh, went into suspension at the end of the calendar year, in the wake of the government resolution not to allow privatisation of the state-owned undertaking.

“Privatisation of the steel plant is a non-negotiable issue for the Chhattisgarh government. The plant is on the list of priority for the government. We will buy the plant if the Centre’s plan is still on,” said Baghel.

On Monday, it was announced that the state government had bought the plant in the Centre’s name due to the privatisation plan. The Centre had sold the plant to private investors about a month before the lists were drawn.

“The question is about the safeguard of Chhattisgarh and the future of its industries. Rampal Jhula is a situation that needs a solution. The Centre has to find a way, whether it is privatisation, acquisition or other options. We should bring seeding to this,” Baghel said.

According to him, in the previous government, the Centre was against all four. “Unable to bear the humiliation, lockdown, died by suicide at his residence on Sunday,” Baghel said. His personal details are expected to be provided in all parts of the state.

4 Covid-positive prisoners escape, 3 rearrested

Dehradun: Four prisoners, who tested positive for Covid-19, on Tuesday escaped from the District Jail in Dehradun, triggering a massive manhunt by the police, who said they last saw the convicts, along with their personal detail sheets, at 7 am on Monday.

The convicts, all prisoners, are currently being held at the central jail in Dehradun. The police said they were last seen at the jail premises.

The convicts are identified as Ram Singh from Bulandshahr, Mohan Singh from Aligarh, and Atul and Anil, both from Lucknow.

“Two of them are wanted in separate cases, while one is suffering from brain disease,” a police officer said.

The police have launched a search operation to trace the convicts.

Car in marriage procession hits 6 people

Bankura: A car in a marriage procession hit six people on Monday, injuring an army officer and a woman severely. Four others sustained minor injuries.

The accident happened around 12:30 pm when the car was proceeding towards the house of the bride in Bhaduri village in Bankura's Motihari block.

On Tuesday, the police said the driver, along with two others, was arrested.

Two from the victims were injured and rushed to the hospital. The others were taken to the police station.

Indian Railways' first Modern Electric Locomotive

New Delhi: Indian Railways’ first Modern Electric Locomotive, DMU-2, has arrived in New Delhi. On December 14, the company said in a statement that the Modern Electric Locomotive will provide improved performance and fuel efficiency.

Army Chief Narayane begins three-day visit of South Korea

New Delhi: Army Chief General MM Narayane began his three-day visit to South Korea on Monday. He is expected to meet with the South Korean Army Chief. Narayane arrived in South Korea aboard Air Force One from New Delhi.

On his itinerary, Narayane is expected to meet with the South Korean Army Chief and will discuss a range of matters, including defence cooperation and regional security.

Narayane is scheduled to meet with South Korean Defence Minister Suh Wook and other top officials. The visit comes at a time when tensions between North and South Korea remain high, following a series of provocations.

Narayane’s visit is part of efforts to enhance defence cooperation between India and South Korea, which have been expanding in recent years.

Mamata's rally in Nandigram called off after MLA tests positive for coronavirus

NEW DELHI: A public meeting to be addressed by West Bengal Chief Minister Mamata Banerjee in Nandigram on Saturday to protest against the Centre’s move to oust TMC MLA from the Assembly based on the court’s order was called off on Tuesday after an MLA tested positive for coronavirus.

The move came after the state government requested the Election Commission to postpone the Assembly poll due to the COVID-19 pandemic.

The TMC MLA, who was to address the rally, tested positive for COVID-19 on Tuesday.

On Monday, the Election Commission had said that the assembly polls would be held on February 17.

The State Election Commission had earlier announced that the assembly polls would be held on February 17, but later postponed it due to the COVID-19 pandemic.
India's first indigenously created vaccine against pneumococcal disease

The Serum Institute of India's (SII) pneumococcal conjugate (PCV) vaccine, approved by the Drugs Controller General of India (DCGI), is expected to inoculate millions of children and adults over the coming years.

Anil Sahai
National Business Editor

In a little over a month, Finance Minister Nirmala Sitharaman had heralded it as a "budget never seen before". As the year nears its end, there are unmistakable signs the government is taking steps to mitigate the adverse impact of the pandemic on the economy. GDP-linked demand has been driven by external factors and the recovery process in the second half of the fiscal year has been weak.

Despite expectations of a strong economic recovery in the current year, government officials have repeatedly said the pandemic's impact on the economy is unlikely to be fully factored in the budget, citing the surge in Covid cases and the projected slowdown in the international economy.

The government's economic stimulus was a response to the Covid-19 pandemic, which led to a sharp contraction in the economy in the first half of the fiscal year. The government had announced a package worth Rs 20 trillion to support the economy and prevent it from slipping into a recession.

I ncreasingly, the government is being urged to release additional fiscal stimulus to boost the economy. The government is expected to announce a new stimulus package in the Budget 2022.

The government's economic stimulus was a response to the Covid-19 pandemic, which led to a sharp contraction in the economy in the first half of the fiscal year. The government had announced a package worth Rs 20 trillion to support the economy and prevent it from slipping into a recession.

The government is expected to announce a new stimulus package in the Budget 2022.
