Court directs NIA to summon witnesses

The special court conducting trial into the 2008 Malegaon blast case on Tuesday directed the National Investigation Agency (NIA) to summon witnesses while asking all seven accused to appear before it on Thursday, the next date of hearing.

On Tuesday, Special Judge P R Sitretold the prosecution and the defence that trial proceedings should resume and the NIA should summon witnesses.

Special Public Prosecutor Avinash Rasal, appearing for NIA, said that since most witnesses in the case are from Malegaon near Nashik or outside Mumbai, it might be difficult to summon them to appear before the court amid the Covid-19 pandemic. He also sought time for the NIA to contact witnesses.

The court, meanwhile, said that all accused in the case – Pragya Singh Thakur, Prasad Purohit, Sameer Kulkarni, Ajay Rahirkar, Sudhakar Dwivedi, Ramesh Upadhyay and Sudhakar Chaturvedi – should appear before it on Thursday.

So far, 140 witnesses have been examined by the prosecution, most of them victims of the blast, who have suffered injuries. Six persons had lost their lives while over 100 were injured in the blast on September 29, 2008.

Last year, the court had said that it would not grant exemption from appearance to any accused unless a cogent reason is provided.

Meanwhile, the NIA on Tuesday filed a reply to an application filed by the kin of a victim seeking that the trial be expedited and evidence be recorded by summoning witnesses.

HC seeks NCRB reply on category for transgender persons in report

New Delhi: The Delhi High Court heard Tuesday asked the National Crime Records Bureau (NCRB) to inform it about any decision regarding the demand for inclusion of transgender persons as a separate third gender in its annual report on prison statistics.

In response to a submission that the matter was pending before the Supreme Court, the court asked the counsel representing NCRB to seek instructions.

“Why long will it take," the division bench of Chief Justice D.N. Patel and Justice Prateek Jalan asked as it observed that prima facie the prayers were "very pertinent and reasonable".

The court was hearing a PIL seeking a direction to NCRB for recognition and classification of transgender persons as a separate third gender in their annual publication of 'Prison Statistics, India'.

Assassination of Iranian nuclear scientist reveals nuclear deal with US in tatters

By JAGDEEP SAVHANI

The Indian Express

In Taherabad, a small village 120 km from the capital Tehran, a small stone plaque commemorates the site of the murder of Mohsen Fakhrizadeh. The nuclear scientist was assassinated last week on a Baghdad-Tehran highway near the village of Absard, in a brazen daylight attack that culminated in the shipment of human remains to the United States.

The assassination has triggered a political crisis in Iran, with President Hassan Rouhani calling it a “cowardly” act and blaming Israel and Saudi Arabia. The move has also intensified tensions between Iran and the US, with President Joe Biden suggesting that the US could explore the possibility of reviving the Iran nuclear deal.

The attack has also raised concerns about the future of Iran’s nuclear programme, with some experts suggesting that it could be a prelude to a wider conflict in the Middle East. The attack has also raised questions about the future of the Iran nuclear deal, which was signed in 2015 and has been a key issue in Biden’s administration.

LETTERS TO THE EDITOR

W A IT AND SEE

By I f shand, Sydney

While getting on with the social mobility agenda, the government of the state of New South Wales (NSW) in Australia has devolved a number of powers from the state to local councils. This devolution is an important step in the direction of making local councils more accountable to the community they serve. Thus, the residents of the state can have a say in the decisions that affect them. This is a welcome change, as it provides a platform for residents to express their opinions and ensure that their voices are heard. In addition, this devolution also empowers local councils to make decisions that are better suited to the needs of their community. As a result, the state government can focus on broader issues, while local councils can concentrate on the day-to-day needs of the people. Overall, this devolution is an important step towards creating a more participatory and accountable political system.

Kerala CPM disapproves of mask or frame modality on the prevention of COVID-19 reaction of certain people towards mask.

Our position on mask or frame modality on the prevention of COVID-19 will continue to be minimum. We have been in favor of the mask and have been consistently advocating its use. However, the government's recent move to introduce a frame modality has not been welcomed by us.

The need for a mask is undeniable, but the frame modality does not seem to be a practical solution. It may lead to confusion and reduce the effectiveness of the mask. Therefore, we will continue to support the use of masks in their current form.

However, we appreciate the government's efforts to ensure compliance with mask guidelines. We believe that the central government should have consulted with states and local governments before implementing such major changes.

Gupta has not spoken of vaccinating entire country: Health Secy

The Health Ministry has not spoken of vaccinating the entire country. The government has been implementing a phased approach to vaccination, starting with high-risk groups and gradually expanding to the general population.

The Health Ministry has been working closely with state governments to ensure that the vaccination process is transparent and efficient. However, the exact dates and plans for vaccination across the country have yet to be announced.

The government has been working tirelessly to ensure that the vaccination process is effective and reaches every corner of the country. We hope that the vaccination drive will continue to be successful and that we will be able to achieve herd immunity.

Polling for 2 Legislative Council seats: Pune district sees higher voter turnout

The electoral turnout for the two Legislative Council seats in Pune district was relatively higher than in other regions. The exact figures are still being counted, but the preliminary results indicate that the voter turnout was above 50%.

The higher turnout could be attributed to a variety of factors, including the intensity of campaigning, the quality of candidates, and the general interest in the upcoming elections. It is also possible that the higher turnout was a result of the COVID-19 pandemic, as people may have felt more socially engaged and interested in the election process.

The local government is expected to announce the final results in the next few days. The outcome of the election will determine the composition of the Legislative Council in the Pune district.

Chanda Kochhar SACKING
SC declines to interfere with Bombay HC order

The Supreme Court has declined to interfere with the order of the Bombay High Court. The High Court had directed the Reserve Bank of India (RBI) to implement the terms of the settlement agreement.

The case pertains to Chanda Kochhar, a former executive director of ICICI Bank, who had been accused of conflict of interest and other violations. The High Court had ordered the RBI to implement the terms of the settlement agreement, which included the removal of Kochhar from the bank's board.

The SC's order means that the RBI can now proceed with the implementation of the settlement agreement. Kochhar's lawyers have expressed their intention to appeal the High Court's order to the Supreme Court.

What's an emergency use approval?

Pfizer has applied for emergency use approval of its vaccine; Moderna and Serum Institute of India too have approached the regulatory authorities for their vaccines. An emergency use approval is granted to vaccines that have completed phase 3 trials and have not been licensed yet.

The emergency use approval is only for the civilian population in India. Approval is not granted for military personnel who are under the Ministry of Defence.

No action has been taken against the administration for not conducting local trials to prove the safety and efficacy of the vaccine.

Emergency use approval is not a license to use a vaccine and it only allows a vaccine to be deployed in the civilian population for COVID-19.

La Maradona of the Caucuses, his success story

A Diego in every nation

Argentina understandably has many “new Maradonas”, but the boxer among geographical boundaries, foundation, and playing fields.

And how about the Indian Maradona? Right from his arrival in Calcutta for the Tata Super Soccer Series in 1988, Dey started to mark the “Indian Maradona” closely. In the 1990s, Thapa was tucked in midfield, his passing, vision, and technique were his strong points. But there was something missing from the 1990s generation. It was the aggressive, physical, and powerful style of play that was missing. The current generation lacks the physicality and aggression that made Dey stand out.

The nature of the Maradona role is changing. Dey was the “prince charming” of Calcutta football in the 1980s. He used to take the ball on his chest control, and deliver it with a touch that was second to none. His vision and passing were his trademarks, and he was a real playmaker for Mohun Bagan. Dey was a versatile player who could play in any position, and his ability to play in different positions made him a valuable asset for Mohun Bagan.

Like Krishna Dey, Bhumarao Shambhaji Shinde has also taken just three strokes in eight ODIs this year, each scoring 140 runs and 352 balls.

Shambhaji Bhumarao and Mohamad Shambhaji rebranded in the dead rubber, it will help in the bigger picture ahead

Searching for the magic spell

If Jayant Yadav and Mohammed Shami rebranded in the dead rubber, it will help in the bigger picture ahead.

Jayant Yadav and Mohammed Shami are two of the most talented bowlers in the Indian team. They have been instrumental in India’s success in recent years. However, they have also been criticized for their inconsistent performance. Jayant Yadav, in particular, has been under pressure due to his poor form in the recent ODIs.

The match against Bangladesh in the first ODI was a turning point for Jayant Yadav. He showed great control and patience on the crease, taking four wickets in the match. His performance was crucial in India’s victory and it was a great start to the tournament.

On the other hand, Mohammed Shami has been inconsistent in recent matches. He has struggled to find his rhythm and has been picked up by the opposition. However, his performance in the first ODI was a reminder of his talent. He took three wickets, including the wicket of Tamim Iqbal, and bowled a tight spell.

It is important for Jayant Yadav and Mohammed Shami to maintain their form and deliver in the remaining matches of the tournament. Their performance will be crucial in India’s chances of winning the World Cup. If they can perform consistently, India will have a good chance of retaining the World Cup trophy.
