Maharashtra unit revamp on cards, PCB chief offers to resign

MANDASHA/SEVILLE

The state unit of the Congress has decided to hold a meeting to discuss a possible revamp on the lines of the Darjeeling chapter. The meeting was called by state unit president Sadiq Jahan, who has been asked to step down from the post. The meeting is expected to take place later this month.

THE TIMES OF INDIA

Congress leader Ajit Pawar on Sunday said that the party will hold a meeting to discuss the possibility of a revamp in the state unit, which is currently under the leadership of Sadiq Jahan.

The meeting is expected to be held in the coming days, and it is likely that the state unit will make a decision on whether to hold the meeting in the near future.

Pawar said that the party is considering various options, including the possibility of a revamp of the state unit. He also said that the party will continue to work towards strengthening its organisation in Maharashtra.

The state unit of the Congress has been under pressure for some time due to the ongoing leadership crisis. Jahan has been at odds with the national leadership, and the party has been considering various options to address the situation.

“Other than this, we are also considering other options to strengthen our organisation. We will make a decision on the matter in the near future,” Pawar said.

The party has been facing a leadership crisis for several months. Jahan, who was elected as the state unit president in 2021, has been at odds with the national leadership over several issues.

Jahan had earlier said that he would not contest the upcoming elections if the state unit is not given a chance to lead the campaign. He has also accused the national leadership of not giving the state unit the required support.

A decision on the state unit’s future is expected to be made in the coming days, and it is likely that the national leadership will play a key role in shaping the direction of the party in Maharashtra.

The Congress has been facing tough competition from the ruling Bharatiya Janata Party (BJP) in Maharashtra, and the party is looking to strengthen its organisation to better compete with the BJP in the upcoming elections.
Shoes hurled during BJP road show, ex minister skips it

BJP leaders Kasidas Vidyasagar, Arjun Singh and Mukul Roy at roadshow in Kolkata on Monday.

EXPRESS NEWS SERVICE

KOLKATA, JANUARY 4

BJP leaders Kasidas Vidyasagar, Arjun Singh and Mukul Roy were among those who were allegedly attacked by suspected TMC supporters on Wednesday.

Shoes hurled during BJP road show

KOLKATA: Shoes hurled during BJP road show in West Bengal’s North 24 Parganas district on Wednesday, a day before the road show was due to begin, interim JMM chief Kailash Vijayvargiya alleged.

This comes less than a month after the national presidential election, which took place in West Bengal on Monday.

“Whoever is responsible for this should take responsibility. The situation is not only affecting the party, but also the people of the state. People are losing faith in the BJP because of this kind of behavior,” said Vijayvargiya.

He also accused the TMC of trying to create an atmosphere of fear in the state to prevent the BJP from holding road shows.

However, TMC’s West Bengal unit chief Manas Bhrayee denied all allegations and said “there is no rule of law in Bengal. People can’t express their opinion and are targeted and our program is attacked. These are attempts to demoralize us. We are ready to face any challenge.”

On the other hand, the TMC denied all allegations and said they are ready to face any challenge. The party also accused the BJP of trying to create an atmosphere of fear in the state to prevent the TMC from holding road shows.

**New year brought achievement with made-in-India vaccines:** PM

Prime Minister Narendra Modi on Thursday said that the new year brought achievement with India’s made-in-India vaccines, while acknowledging that there were challenges.

"This year, our scientists, industry and government together have brought a "big achievement" with the launch of made-in-India vaccines," he said in his New Year’s address.

PM said that when the scientific community was thinking, "where will the vaccine go?" in the beginning, India was ready with two vaccines.

"Do not blame anyone; we were the first," he added.

PM further said that the world has come to know that India can make vaccines and has set a new standard.

"We have made vaccines indigenously, with Indian technology and Indian labor. This is an achievement for the nation," he said.

Agri-export body drops ‘halal’ from meat manual

NO ROLE FOR GOVT

The requirement of the importing country, the importing body as per the halal system under strict vigilance of the Ministry of Agriculture, has now been dropped by the Agricultural Marketing Board.

LIZ MATTHEW

ASSOCIATED JOURNALS OF THE INDIAN EXPRES

The Supreme Court has directed that the import of only halal-certified meat should be permitted under strict vigilance of the Ministry of Agriculture, has now been dropped by the Agricultural Marketing Board.

The Directive Order of the importing country, the importing body as per the halal system under strict vigilance of the Ministry of Agriculture, has now been dropped by the Agricultural Marketing Board.

While referring to Ramzan’s e-mail and an order same day, Ramzan had said that the conclusion was based on the laws of the halal system and the requirement of the importing country.

Ramzan later appealed to the Supreme Court for clarification on this matter, but the court refused to hear the matter.

The court had said that the agri-export body had no role in the matter of importing meat and that it was the responsibility of the importing country to ensure that the meat was halal.

Ramzan had said that he had written to the agri-export body and the Ministry of Agriculture requesting them to clarify their position on the matter.

**The MP Letdown**

As Chief Minister Shivraj Singh Chouhan takes a shrill turn, he must know his own political administrative record at stake.

OMNIAL TENDENCY has been积蓄 in the ruling quarters of Madhya Pradesh in the last few days and looks set to overtake party workers to gather around the slogan of doing for the ‘Raja’ temple in Ajaipur. There have been instances of blowing up provisions made in Sagar, Indore, and other places. There was an instance ofachoed propaganda voice that they are the underdogs. The administration has arrested some people involved in road works, but now the entire episode is highlighted to do nothing with the workers. However, Chief Minister Shivraj Singh Chouhan has been remarkably silent about his administration's wrongdoings. On the contrary, the recent law will be formulated on the lines of the decision that the Pradesh Dynasty of Dabur and Dabur Property Developers (2020) with some strange operations. Cracking down orders are sufficient to deal with the situation or any action that can cause public disturbance. MT as an exercise in legal administration is incorrect. As the case stands, the entire exercise of the administration—be it an MOU, the CM has already followed up the idea on the anti-conversion bill against Mughal Conversions. It can be detected that a peculiar administration could have avoided the turning of the communal erosion if it had acted with clarity.

A key-time chief minister, Chouhan has earned himself a reputation for being a resulted MP, Madhya Pradesh's law minister. His administration has a mix of policies. Yet, he has also earned himself a reputation in a public interest litigation (PIL) case. Speaking out on his political record, a day ahead of the recent law, he said, “I am in a dangerous moral dilemma. I will not speak on those who are leading the movement. I believe they are doing the right thing in this respect. That is why I am requesting them to respect the rule of the law and not indulge in any illegal activities. Leave Madhya Pradesh, otherwise, I will bury you 10 feet deep and never come back.”

For Chouhan, this is a turning point. State-wide, as a political administrative record to be left behind. As the voice of the party’s administrative record, there is no way that the party will escape from the criticism on the lines. Keenly, the party’s record for the coming elections will be to be known by the government of the state. To the extent of the public’s reaction, the entire exercise of the Chouhan administration’s past will beNews of the World

India has approved two Covid-19 vaccines for restricted use. How do these work, when will they be given, and to whom? Why have some scientists expressed concern, and what is the government’s explanation?

## What next for vaccine rollout

### Simple Put Question

India has approved two Covid-19 vaccines for restricted use. How do these work, when will they be given, and to whom? Why have some scientists expressed concern, and what is the government’s explanation?

### News Clipping

**PRARTHAN AGARWAL**

The approval of two Covid-19 vaccines in the country is a huge step forward in the fight against the virus. However, several questions remain about their safety and efficacy. The government has to ensure that these vaccines are distributed equitably and that everyone who wants a shot can get one.

**Sources:**
- **Massachusetts General Hospital**
- **Indian Express**
- **Sena**

### Key points

- **What are the vaccines?**
  - Covishield, manufactured by Serum Institute of India, and Covaxin, manufactured by Bharat Biotech.

- **How do they work?**
  - Covishield is an attenuated strain of the SARS-CoV-2 virus, while Covaxin is a recombinant adenovirus vector vaccine.

- **What is the approval process?**
  - The Drugs Controller General of India (DCGI) has approved both vaccines.

- **Who will get the vaccine first?**
  - Frontline workers, followed by elderly and people with comorbidities.

- **What are the side effects?**
  - Both vaccines are expected to cause mild to moderate side effects such as fever, pain at the injection site, and headache.

- **What about those with allergies?**
  - People with a history of anaphylaxis to any component of the vaccines should not receive them.

- **How many doses will be administered?**
  - Both vaccines require two doses.

- **When will the vaccine be available?**
  - The government is planning to start the vaccination drive soon.

- **What about efficacy and safety?**
  - Clinical trials have shown high efficacy and safety rates for both vaccines.

- **What about the cost?**
  - Both vaccines are expected to be priced at a affordable cost.

### Expert观点

**Rahul Roy-Chaudhury, Professor of Microbiology, IITBombay:**

The approval of the vaccines is a significant step towards controlling the pandemic. However, there are concerns about the long-term effects and the potential for the virus to develop resistance.

**Dr. Vinod Kaul, Cardiologist:**

The approval of the vaccines is a major milestone in the fight against the pandemic. However, the effectiveness of the vaccines needs to be monitored closely to ensure their safety and efficacy.

### Concluding thoughts

The approval of the vaccines is a significant step forward in the fight against the pandemic. However, there are concerns about the long-term effects and the potential for the virus to develop resistance. The government needs to ensure that these vaccines are distributed equitably and that everyone who wants a shot can get one.
