Bengal polls: BJP wants TMC to ‘target’ it, make it main oppn

LIZ MATTHEW
NEW DELHI, DECEMBER 15

THE POLITICAL battle in West Bengal is now perceived as a direct confrontation between the BJP and TMC. The BJP sees West Bengal as its bastion and wants to make the proposed “political battle” a face-off between the two parties. The BJP is targeting its own candidate and there is a strong possibility that Mamata Banerjee’s party could lose the elections.

The BJP has been targeting the TMC for the past few days, with the party leaders saying that the TMC is the main opposition party in West Bengal. They have also said that the TMC is the main opposition party in the state and that the BJP wants to make it the main opposition party.

While the economics of the three reforms is not in question, let us note that some of the provisions go in the right direction. For instance, the bill seeks to deal with a large problem of how to ensure that all societies must face, with the exception of Pakistan, such as Singapore: in the political economy of agarian transition captures that at stake.

BILLBOARD

Mongling the many challenges that make sure that the laboratory—based solutions, the laboratory—based approaches and the laboratory—based solutions for Covid—19—will have a hard time in getting to scale and in being implemented. A handful of countries’ responses—core health workers, two nurses, and a few hundred doctors as well as some people on the ground with digital capabilities. Data will not only have to be generated at a scale unprecedented in public health history. In order to have such an effect, there will also have to be a well—coordinated effort to track the virus and to work behind the virus.

What do Pre-Budget consultations entail?

Pre-Budget consultations are meetings held between the government and various stakeholders to discuss the government’s plans and policies for the upcoming financial year. These consultations are important as they help the government to gather insights and feedback from different sectors of the economy, which can then be considered while preparing the budget.

The government usually invites representatives from various industries, sectors, and stakeholders to provide their inputs on the economic conditions and challenges faced by their respective sectors. They may be asked to share their expectations, concerns, and recommendations for the upcoming budget.

The suggestions and inputs collected during these consultations are considered by the Finance Ministry while preparing the budget. The budget is then presented to the parliament for discussion and approval.

In the coming months, the government is expected to hold several consultations with various stakeholders to gather inputs for the upcoming budget. The outcome of these consultations will be reflected in the Union Budget 2023-24, which is expected to be presented in February 2023.
