Vodafone, India loses

Vodafone, a British telecoms company, lost a significant legal battle in India against the government.

The People's Alliance for Gupkar Declaration (PAGD) contested six seats in last month's elections to the District Development Council (DDC) in Jammu and Kashmir's Kashmir and three in Jammu.

While three of them were won by the Jammu National Conference, People's Movement—and were thus declared winners—by clear margins, the People's Alliance for Gupkar Declaration (PAGD) contested six seats in last month's elections to the District Development Council (DDC) in Jammu and Kashmir's Kashmir and three in Jammu.

First tiger transgression in Uttarakhand tomorrow, big moves to follow

LALMANGAL頭

THE TIGER BAZAAR is set to welcome the first transgression of an Indian tiger since 2021. An eight-year-old male tiger, named either Rishi or Raj, has been spotted twice in Kumaon, in the forest range of Dhauli-Gosainganj of Almora district in Uttarakhand. The tiger was recently spotted in a camera trap set up by the Wildlife SOS/FFI Project Tiger.

The big cat is not a permanent resident of the area and is bound to move out of the region soon, according to the preliminary observations. However, the wildlife experts are worried as this might be the first transgression of a tiger in Uttarakhand for two years.

In 2019, the Uttarakhand government framed a policy for translocation of tigers within the state. The policy was put into effect in 2020, with the translocation of a tiger from the Panna Tadoba Reserve in Madhya Pradesh to Corbett National Park in Uttarakhand.

The translocation of the tiger marked the beginning of the Uttarakhand tiger relocation project, which was launched in 2019 to address the issue of tiger conservation in the state.

There are currently 10 tigers in the Dhauli-Gosainganj forest range, which is part of the larger tiger habitat in the Kumaon region. The tiger transgression raises concerns about the possibility of conflicts between humans and tigers in the area, especially as the tiger population continues to grow.

The wildlife experts are also worried about the impact of the tiger transgression on the local ecosystem, as tigers are apex predators and play a crucial role in maintaining the balance of the ecosystem.

The tiger transgression in Kumaon marks a significant step in the conservation efforts of the state government and the wildlife departments in protecting the endangered species. It also highlights the need for continued efforts to create more tiger habitats and ensure the safety of both humans and tigers in the region.

The tiger transgression in Kumaon is a reminder of the importance of wildlife conservation and the need for continued efforts to protect endangered species. It is hoped that the state government and the wildlife departments will take necessary steps to ensure the safety of both humans and tigers in the region.
**Kolkata:** In the past 24 hours, 1,628 persons tested positive for Covid-19. The cumulative number of discharged persons has become 5,16,462.

The recovery rate has increased to 95.35 percent. The total number of cases in West Bengal increased to 5,41,624. On Tuesday, the total caseload was 5,39,996. As many as 41,067 samples were tested, taking the total to 68,16,965.

29 injured in Kolkata accident

**EXPRESSION NEWS SERVICE**

KOLKATA, DECEMBER 23

AT LEAST 29 persons were injured in an accident on AJ Bose flyover in Kolkata on Wednesday. All the injured persons were taken to Chittaranjan National Medical College and hospital and seven were admitted.

According to sources, 14 women are among the injured. According to police, a Tata 407 carrying 29 passengers turned sideways on the flyover. Sources said that the driver of the vehicle was talked to over the phone and hit the divider. The vehicle was seized and taken to Bentapukur police station.

“We had got a call that 29 persons had suffered minor injuries. We were on our way to our station and we came to know when the accident occurred,” said a police officer.

Traffic movement on the flyover towards Victoria South Gate were affected for about half an hour. Due to an accident on AJ Bose flyover near Bangladesh High Commission, traffic was suspended on AJ Bose flyover towards 7 Point from Victoria South Gate,” said PC Agarwal, Additional Superintendent of Police.

Some of those who have been injured are Samir Mahali (12), Rina Mahali (30), Sintu Mahali (24), Swapna Mahali (45), Ranjit Roy (42) and Sasthi Mahali (32).

The injured persons were taken to Chittaranjan National Medical College.

**State board exams in June next year**

**EXPRESSION NEWS SERVICE**

KOLKATA, DECEMBER 23

STATE EDUCATION minister Partha Chatterjee on Wednesday announced that state board examinations Madhyamik (class 10) and Higher Secondary (class 12) would be held in June.

The announcement came as the West Bengal Council of Higher Secondary Education (WBBSE) had proposed to state government to conduct the exams in June.

Partha Chatterjee, Additional Chief Secretary, Department of School Education, addressed a press conference regardingbz

On Tuesday, Union Education Minister Ramesh Pokhriyal said board exams conducted by the Central Board of Secondary Education (CBSE) would not be held in January and February.

During an online interaction, Ramesh Pokhriyal said, “The process of board examinations will no longer be started in January-February this time.”

Every year the Central Board of Secondary Education (CBSE) conducts examinations to classes 10a nd 12 in January.

In November, Chief Minister Mamata Banerjee said the government had decided not to hold的同时 examinations for classes 9 to 12 due to Covid-19 pandemic.

The students were allowed to directly appear for the Madhyamik, and Uchcha Madhyamik examinations.

Baul singer who hosted Shah slams BJP after TMC offers help

**Baul singer on Wednesdays said the party should not talk to him after the lunch meeting in Birbhum.**

Adhir slams BJP

"In Ram's land, some folksongs for Shah."

"Suvendu Adhikari is neither a 'paribartan' nor a traitor," he added, referring to the party's chief ministerial candidate. A BJP source said the party would not allow Suvendu to become chief minister again.

"We have to support and save our nation. No one can destroy Bengal. It will be destroyed by Suvendu, if he becomes chief minister again," he said.

"It is true that he has been expelled from the party. But he has a group of supporters and we cannot stop him from fighting the next election," the source added.

Meanwhile, Prime Minister Narendra Modi said he was looking forward to addressing the centenary celebrations of Visva-Bharati University on January 1, 2022. He added that the university, which is known for its contributions to Indian culture, had been a "source of inspiration" for him.

"I am looking forward to addressing the centenary celebrations of Visva-Bharati University on January 1, 2022," the prime minister said.

"The university, which is known for its contributions to Indian culture, had been a source of inspiration for me. It continues to inspire me today," he added.

Writing the Growth Story of UP.... Way Forward to Becoming a $1 Trillion Economy

In his over three-and-a-half-decade tenure as Chief Minister of UP Yogi Adityanath and his government have successfully implemented comprehensive measures to ensure all-round development across all sections of society, with an aim to project UP as the shining example of new age development and to achieve its dream of targeting a $1 trillion economy by 2025.

Economic Reforms

Yogi Adityanath, the Chief Minister of UP, has been vastly improving the economic situation of the state. He has focused on digitising the government services, which has reduced the need for physical visits to government offices. He has also introduced various social welfare schemes which have helped in poverty reduction.

Agriculture

Yogi Adityanath has been focusing on the growth of the agriculture sector in UP. His government has been making efforts to increase the production of foodgrains and crops. The government has been providing various financial incentives to the farmers to increase their production. The state has also been receiving high-quality seeds from other states to improve the quality of agricultural produce.

Industrial Development

The state government has been focusing on industrial development in the state. Several industries have been set up in the state which have created employment opportunities for the local population. The government has been providing various incentives to the industries to attract more investments.

Investment and Infrastructure

The state government has been focusing on improving the infrastructure of the state. Various projects have been started to improve the road network, water supply, and electricity supply in the state. The government has been making efforts to improve the quality of education in the state.

Tourism

The state government has been focusing on promoting tourism in the state. Various tourist spots have been developed to attract more tourists. The government has been providing various incentives to the tourism industry to attract more investments.

Healthcare

The state government has been focusing on improving the healthcare system of the state. The government has been providing free medical treatment to the poor and needy people. The government has also been focusing on improving the quality of education in the state.

Conclusion

Yogi Adityanath's government has been making efforts to make UP a $1 trillion economy. The state government has been focusing on various sectors such as agriculture, industry, tourism, and healthcare to achieve this goal. The state government has been making efforts to attract more investments and improve the infrastructure of the state.

The growth story of UP is the story of a state that is working hard to achieve its dream of becoming a $1 trillion economy. The state government has been making efforts to improve all sectors of the state and make it a shining example of development.

Monk with a Message

The growth story of UP is the story of a monk who has been working hard to achieve his dream of becoming a $1 trillion economy. The monk has been focusing on improving all sectors of the state and making it a shining example of development.

The growth story of UP is the story of a state that is working hard to achieve its dream of becoming a $1 trillion economy. The state government has been making efforts to improve all sectors of the state and make it a shining example of development.

MESSAGE FROM J&K

Not exactly a spring but DDC election results mark a thaw in J&K’s frozen politics, what next is the real test

THE INDIAN EXPRESS, Thursday, December 24, 2020

WONDER WORDS
Elections are always a Rorschach test—people look at the results and see what they want to see. —Anne Applebaum

Aakash Bhande

ASSAM BANDH
The Assam government has announced a complete lockdown of all 13 districts for the next 12 hours. All contact禁止的 and movement of people is prohibited. Schools, colleges, and offices will remain closed. All public transport will be suspended. The lockdown is in response to the surge in COVID-19 cases across the state.

SUPPORT FOR FARMERS
The Supreme Court of India has established the National Farmers’ Coordinating Committee (NFCC), which has been set up to address the demands of the farmers. The committee is made up of representatives from different states and is chaired by the Union Minister for Agriculture.

UN PREMISES ATTACKS
The UN building in Beirut was attacked and a large explosion rocked the area. The cause of the explosion is not yet known, but it is believed to be related to the storage of flammable materials.

The General Assembly has called for a meeting to discuss the situation in Yemen. The meeting is scheduled to take place tomorrow.
How to USBensible Farm Mess

Key lesson from the standoff is that steamrolling Parliament backfires. The new laws are desirable so why not notify them in select districts to demonstrate their beneficial effects?

Dr. Arvind P Dayar

THE AGE OF FARMERS over the recent agitation has left us with a legacy of unprecedented mass mobilization which has left no room for doubt that the rural masses across the country are mighty and have been successfully agitated. The movement has been so successful that it has not only achieved to force the government to revise its legislation but also to effect a change in the mindset of the governing elite. The dignity of Parliament, which is the fountainhead of democracy, has been restored to its place. The government has been forced to back down from its ill-advised move to change the laws of Labour and agrarian reform.

This article aims to provide a perspective on the issue of agricultural reform and the role of Parliament in this context. It argues that the new laws are desirable but perhaps not in the form they have been presented. The article also highlights the importance of stakeholder consultation and a participatory approach to policy-making.

The Beginner’s Guide to Agricultural Reform, by Arvind P Dayar

For People-Centric

The security worker

Preferential-fronted for improved industry relations

Radhika Kapoor

At the General strikes against the new farm laws, the security workers played a vital role in ensuring the safety and security of the protesters as well as the general public. This article reflects on their role and the challenges they faced during the protests.

The article discusses the importance of security workers in maintaining order and protecting the rights of protesters. It highlights the challenges they faced in a volatile environment, including physical attacks and threats. The article also mentions the support they received from the public and the media.

The article concludes by emphasizing the need for recognition and respect for the security workers who played a crucial role in ensuring the success of the protests.

Metro conducts smooth first trial run in Noapara Dakshineswar section

In a significant milestone for the Kolkata Metro, a smooth first trial run was conducted in the Noapara Dakshineswar section, marking progress in the ongoing development of the metro network. The trial run, which took place at Noapara Station, was supervised by Metro officials and involved the participation of key stakeholders.

The platform, concourse, and gates were present at the station, indicating ongoing developments aimed at ensuring safety and convenience for commuters. The successful trial run is a testament to the dedication and hard work of the officials and workers involved in the construction and operation of the metro system.

The smooth operation of the train highlights the readiness of the system for further trials and eventual service commencement. The next phase of trials is expected to involve more complex scenarios and further testing of the system in various conditions.

This development is significant as it brings us closer to the realization of the metro's potential to revolutionize public transportation in the city, providing a more efficient and sustainable means of commuting for residents and commuters alike.

GOV'T OF BIHAR

Bihar Combined Entrance Competitive Examination Board (BCECEB) has released the results for the 2nd round counselling of Medical and Dental admission. The results were announced on BCECEB's official website.

The 2nd round counselling was conducted to fill the remaining seats after the completion of the 1st round. The counselling process included various rounds to allocate seats to eligible candidates based on their performance in the entrance examination.

The 2nd round counselling was conducted by the Bihar Combined Entrance Competitive Examination Board (BCECEB). The board conducted the counselling process in several rounds to allocate seats to eligible candidates based on their performance in the entrance examination. The results for the 2nd round counselling were announced on the BCECEB's official website.

The results for the 2nd round counselling were announced on the BCECEB's official website. The candidates can check their results on the website and proceed with further steps as per the instructions provided by the board.

SAI DUTTA HOSPITAL Mid-March

Saikat Sarkar, in his capacity as the West Bengal Chief Minister, has released a statement regarding the current situation in the state. The statement highlights the government's efforts to tackle the ongoing crisis and the measures being taken to ensure the well-being of the people.

The statement emphasizes the importance of maintaining strict adherence to COVID-19 protocols to curb the spread of the virus. It urges people to take necessary precautions such as wearing masks, maintaining social distance, and following hand hygiene.

The government is also working towards providing necessary medical and financial assistance to those affected by the pandemic. The statement mentions the expansion of the vaccination drive to cover more people and the ongoing efforts to ensure equitable distribution of resources.

The state government is committed to ensuring the safety and health of its citizens and is taking all necessary measures to mitigate the impact of the pandemic. The people are advised to remain vigilant and follow the guidelines to prevent further spread of the virus.

The statement concludes with a reminder to the public to remain united and support each other during these challenging times. It encourages the people to contribute their efforts in the fight against the pandemic and work together to overcome the crisis.

NIA arrests 'Khalistanis' Operative

A number of Khalistanis, allegedly involved in operations in India and Pakistan, were arrested by the NIA. The arrested individuals include two Khalistani separatists who were involved in planning and carrying out operations in India and Pakistan. The operations were aimed at subverting the democratic process and undermining national security.

**NUCLEAR ENERGY**

Nuclear power in the UK

The UK's energy sector is facing a crisis due to the closure of several nuclear power plants. The government has announced plans to invest in new nuclear power plants to replace the existing ones, but this is not expected to be sufficient to meet the country's energy needs. It is expected that the UK will need to increase its reliance on renewable energy sources and energy efficiency measures to meet its energy needs.

Why virus in Antarctica isn’t an Indian worry yet

As of now, the Indian scientists in Antarctic stations are not reporting any spread of the virus. The two Indian permanent stations, Maitri and Marama, are at least 50 km away from the Chilean base, according to a spokesperson. The isolates identified in Antarctica are from the Russian research station.

The Council of Ministers of National Antarctic Programme, company of interest had also decided only in the pandemic to cut down on the number of personnel working at the stations. The Indian station was away from the virus. All major research projects during the summer while the British Antarctic Survey’s research icebreaker will take about a month. The ship will travel directly from Goa, “Ravichandran said. The Indian station is unaffected by the pandemic.

"It had then asked for a detailed investigation. The Indian team of about 50, which had arrived in Antarctica in December, will take about a month. The ship will travel directly from Goa, “Ravichandran said. The Indian station is unaffected by the pandemic.

British tightens restrictions as alarm about new coronavirus variant in France grows

France opens UK border to drivers who test negative, South African variant of virus detected in Britain

ISABEL KESWORTHY
DECEMBER 23

Israel's government has committed the country into another early election.

The Israeli Parliament dissolved on Tuesday. The nerve-wracked new prime minister, who has been accused of corruption, will now lead the coalition that joined Prime Minister Benjamin Netanyahu's government with a conservative-led coalition with power to pass legislation.

On Tuesday evening, Prime Minister Benjamin Netanyahu, who has been in office for a record 13 years, announced his resignation to make way for a new government.

The move comes after months of political turmoil that have left the country divided and deeply dysfunctional.

Netanyahu's future had been in doubt after he was found guilty on corruption charges last year. But he managed to cling on to power by persuading his fellow right-wing politicians to join a unity government.

Israel's political system is heavily skewed in favor of the right, and Netanyahu has been able to maintain his grip on power despite corruption allegations.

But with the dissolution of the parliament, Israel will now be governed by a caretaker government until a new election can be held.

The new government will be led by former Defense Minister Benny Gantz, who has been working to form a coalition. He has said he plans to focus on economic and social issues, but it remains to be seen whether he can unite the country.

Israel's political system is known for its frequent changes, and it is likely that this will be a short-lived government.

Meanwhile, Oldest Panda in Captivity Dies At 38

Xin Xing, the world's oldest panda, has died at the age of 38 in the Chinese giant panda reserve. The panda was born in 1983 and was the oldest of the 300 pandas in captivity.

His death comes as concerns grow about the species' future. The pandas are critically endangered, with only about 1,860 individuals left in the wild.

Xin Xing lived at the Chongqing Zoo in China and was known for his distinctive appearance, with a white nose and black eyes.

The zoo said in a statement that Xin Xing died peacefully at his home in the reserve, surrounded by family and friends.

The zoo also said that Xin Xing had been in good health until recently, but began to show signs of deteriorating health in recent weeks.

Xin Xing was born in 1983 at the Chongqing Zoo and was the first giant panda to be born in China. He was moved to the Chengdu Research Base of Giant Panda Breeding in 1998.

The base has been recognized as a world leader in giant panda conservation, and has played a key role in the conservation of the species.

In recent years, there have been growing concerns about the future of the giant panda, with habitat loss and poaching posing major threats.

The conservation efforts of the Chengdu base have been praised, and it has been called a shining example of how conservation can be successfully achieved.

The death of Xin Xing is a reminder of the challenges faced by conservationists, and the need for continued efforts to protect this iconic species.

AFGHAN OFFICIAL BOMB, SHOOTING ATTACKS IN KABUL KILL 3 PEOPLE

Three Afghan police officers were killed on Wednesday in a bomb and shooting attack in the capital.

The attack took place in the heart of Kabul, and it is believed that it was carried out by a suicide bomber.

Thebraindead by a suicide bomber.

The bomber in an explosives-laden motorcycle rammed into the security forces, killing at least three police officers and wounding several others.

This is the latest in a series of attacks targeting security forces in Afghanistan, which has been beset by a decades-long conflict.

The Taliban have been increasing their attacks in recent months, and the government has been struggling to contain the violence.

The peace process initiated by the US and the Taliban in 2020 has made little progress, and the conflict continues to rage in many parts of the country.

The latest attack comes amid a growing sense of desperation in Afghanistan, with the government facing mounting challenges.

The Taliban have been gaining ground, and the government is struggling to contain the violence.

The latest attack highlights the continuing security challenges in Afghanistan, and the urgent need for a political solution to the conflict.
NEW DELHI, DECEMBER 23

Economists are learnt to have been asked to prepare a ‘handhold’ first 100 plants within a few days, with an option to scale up to 100 per cent within a year, according to Sitharaman’s last meeting was with an new battery technology.
