Missing woman & her three children found hanging from tree

Suicide, say police; husband and second wife in custody

Two days after they were last seen, the bodies of a 30-year-old woman and her three children were found hanging from a tree in the jungle near a village in Bhiwandi, a town in the Raigad district.

The police said that the woman, identified as Ranjana Bangari, had been living in Bhiwandi town with her husband Sripath and their three children. The bodies were found around 10:30 am on Saturday when the Padgha police went inside the forest to lodge an accident report.

Police said that the woman was last seen alive on October 15, when she went to nearby villages to look for her missing children. She had been living in the village with her children for the past four days.

Nagpur's chief commissioner of police, Mr. Rakesh Shukla, said that the police had been conducting an investigation into the cases.

A police officer said that it was a case of suicide, but the police had not yet registered a case.

On Saturday afternoon, the police went inside the forest near the town to look for the woman.

BMC grants 1 lakh sq ft building rights to private developer for existing public road

The road in question is an existing 30-feet wide internal road that connects to Mahalakshmi Kavach. It is being used by the residents of Mahalakshmi Kavach, which are listed in the AMC's record with the address of the Mahalakshmi Kavach compound.

The building right was granted by Chief Minister Uddhav Thackeray's MahaVikasAghadi government.

BMC grants 1 lakh sq ft building rights to private developer for existing public road

A committee of bureau officers and Additional Municipal Commissioner (A) Satyendra Agarwal had on December 23, 2022, granted building rights to a private developer for the existing 30 feet wide internal road between Mahalakshmi Kavach and Prince of Wales Chambers.

The building rights were granted to a developer under the Development Plan (DP) Act of 1994, which was implemented by the BMC in 2000.

The developer, a private builder, had submitted an application to the BMC under the DP Act of 1994 for the construction of a five-storey building on the existing 30 feet wide road.

The BMC had granted building rights to the developer under the DP Act of 1994, which was implemented by the BMC in 2000.

College admission begins after inordinate delay

The admission process in Maharashtra and across the country saw inevitable changes due to the pandemic-induced delays in conducting entrance examinations and high cut-off marks obtained by students.

As per the schedule, the CET cell’s notification mentioned, “The entire process of filling up forms, uploading documents and registration would be done online. Candidates need not visit the designated physical centres (Rs 600 for reserved category).

As per the schedule, after registration, uploading of documents and their verification would continue till December 15 for engineering admissions. The provisional merit list would be displayed on CET Cell’s website on December 18 and final one on December 22 after clearing objections. The online admissions for the first round would begin from December 23 and the provisional allocation list would be uploaded on December 28. Students need to report to their colleges by December 29 to 31 after which the second round admissions would commence. Academic activities would commence from January 4 while the deadlines for all admissions would be January 14.

Since exams got postponed inordinately during the pandemic, students had a lot of time to prepare and there were many rules, regulations and checks in place. There’s no industry/sector that hasn’t been hit by the pandemic. Education sector is one of those sectors that has suffered the maximum and has gone through many of those pandemic-induced educational improvisations to remain stable and functionable in today’s unpredictable world. When the pandemic hit, there was a lot of chaos, as exams were postponed, online academic activities in all colleges would commence from January 4, mentioned the schedule. The final cut-off dates for all admissions would be January 14. “To cover up for the delay during the pandemic and to prevent further academic loss, the CET cell will announce only two round of admissions, instead of three this year.”

As per the schedule, the CET cell’s notification mentioned, “The entire process of filling up forms, uploading documents and registration would be done online. Candidates need not visit the designated physical centres (Rs 600 for reserved category).”

The colleges expect the merit list would be displayed on CET Cell’s website on December 18 and final one on December 22 after clearing objections. Unseasonal rain causes Mumbai’s max temp to dip

SANJANA PATEL
MUMBAI, DECEMBER 11

MUMBAI, ON Friday morning, recorded unseasonal rain, coupled with cloudy skies through the day. Till 8.30 am, 3 mm rainfall was recorded at IMD’s Colaba observatory and 0.2 mm was recorded at the Santacruz observatory.

As a result of the rain, the maximum temperature in the city was recorded at 28.8 degrees Celsius, 4 degrees below normal. However, it did not affect the minimum temperature, which was almost 6 degrees Celsius above normal.

Humidity levels were 92% in South Mumbai and 79% in the suburbs. At 24.4 degrees Celsius, the minimum temperature at IMD’s Santacruz observatory was 6 degrees above normal. This was the second-highest December minimum temperature in 10 years in Mumbai; the highest was recorded last year on December 5 at 25.3 degrees Celsius.

The weather bureau said rain along the Konkan coast was under the influence of a low-pressure weather system over the southeast Arabian Sea. As per the 48-hour forecast by IMD, there is a possibility of thunderstorms in the city with thundershowers and light rain in Mumbai.

In the nine hours ending at 5.30 pm on Friday, Colaba recorded 1.4 mm, and Santacruz recorded 0.7 mm.

Unseasonal rain was also recorded across other parts of the Mumbai Metropolitan Region, across Raigad district, and other areas along the south Konkan between Thursday night and Friday morning. Rain during December is rare for the city. In the last 10 years, it has rained three times in December. The all-time high December rainfall was between December 5 and 7, 2017, when cyclone Ockhi went past the city.

The baten for social transformation, the empowerment of women, with the goal of reaching 100% of the population has been passed on by great personalities through several centuries; from Raja Ram Mohan Roy to Mahatma Jyotiba Phule-Savitribai Phule, to Mahatma Gandhi, to Dr. Babasaheb Ambedkar. This battle, in current times, is being upheld by Shri. Sharad Chandrachidious. 2 Chandrapur farmers move HC against ‘discriminatory’ approach of govt during floods

Vivek Deshpande

THE INDIAN EXPRESS, bench of Bombay High Court district have moved the Nagpur bench of Bombay High Court district.

Petitioners Manik Chaudhari and Rahul Wadke from Udaipur village–both in Vidarbha–have claimed that the government did not alert them of the impending flood by issuing any proper notice.

According to the petitioners, the flooding occurred in the town of Brahmapur itahsil of Chandrapur district–have claimed that the government did not alert them of the impending flood by issuing any proper notice.

They alleged that the compensation offered by the government was far less than actual damage suffered by them.

The petitioners’ complaint was registered by lawyers Kalyan Kumar and Anand Despande, who are brothers and work in the office of Despande & Partners.

The petitioners claimed that the government did not follow any chain of command while dealing with floods in Vidarbha during the entire period of floods.

According to the petitioners, the compensation offered by the government was far less than actual damage suffered by them.

They alleged that the compensation offered by the government was far less than actual damage suffered by them.

JIMMUNDI

The Haridwar High Court on Friday adjourned until December 15 the hearing of a petition seeking direction to the Union government to withdraw the arrest warrant against walking on the floor and mandating that the accused be produced before a court. The petition is filed by former Union minister Ramdas Athawale.

The court had earlier ordered the petitioner to withdraw his petition as it was not entertained. The petitioner had argued that Athawale's arrest warrant had been issued in the light of a false allegation and that the warrant was being misused.

However, the petitioner had contended that the warrant had been issued in the light of a false allegation and that the warrant was being misused.

On Friday, the court adjourned the hearing of the petition and directed the petitioner to withdraw his petition. The court also ordered the petitioner to withdraw his application for adjournment.

PM makes eloquent and soaring case for democracy as he flags off new Parliament project — there was also the sound of a silence

The effectiveness of the opposition in West Bengal is essential in the upcoming election. The Congress and the CPM have a history of suppressing opposition voices during their time in power. It is crucial for the foundation stone-laying of a new high-tech and modern house for democracy, having won on a large mandate not once but twice, is not taking the next step to ensure that the people's voice is heard.

In the 1980s, the Prime Minister took to the streets to engage with those who were less powerful or in a minority. The 'we', pratishtha, or life force, is infused by the people's representatives, whom may differ with each other, but work together to ensure justice and peace.

The TMC did not pioneer the use of violence to achieve political dominance — the Congress and the CPM also used violence. The Indian Ocean has become an important area for regional political autonomy with almost exclusive control over maritime resources. The Sri Lankan Freedom Party (SLP) remains hopeful of accommodation and the Tamil Nadu government has made progress in the implementation of the 13th Amendment to the Sri Lankan Constitution resulting from the 1987 Indian Infrastructural Agreement.

A century-old political party, now in the minority, is being forced to keep the front running. On the day before the elections, the Prime Minister tried to turn a blind eye to his party leaders and cadres, who are accused of unauthorised immigration and illegal land grabbing.

The TMC is determined to ensure that the people's voice is heard, and the government's actions are reflect the people's wishes. It is crucial for the foundation stone-laying of a new high-tech and modern house for democracy, having won on a large mandate not once but twice, is not taking the next step to ensure that the people's voice is heard.

Politics of Violence
West Bengal's politics needs an overhaul — the ruling party must own the responsibility, take the lead

The TMC did not pioneer the use of violence to achieve political dominance — the Congress and the CPM also used violence. For reasons best known to the “political economists,” agriculture was not freed in 1947. Farmers are forced to sell their produce not only through the mandis, but also directly to the consumer. The new reformed law allows the farmer to sell through the mandis, and to sell outside the APMC. It is his choice. The government guarantees all of its food through its APMCs — only about 6% of the farmers in India sell through the APMCs. The government has set up the MSP keeping in mind the rising input costs. The government must urgently put in bureaucratic controls over the adjudication of disputes. The current system is too slow to deal with the huge demands. The mechanism of dispute resolution must be quickly expanded and made expeditious. The government’s approach to the current demands of the farmers can only be understood if we see the context in which it is being made. The government used to send in the soldiers to keep the farmers out of the fields. The government is trying to bring in the farmers on their terms and put in place a system of proper regulation. The government should look at the objectives to be achieved. The government must look at the situation of the farmers and come up with a plan. The government used to deal with the farmers with utmost care. The government is trying to bring in the farmers on their terms and put in place a system of proper regulation. The government should look at the objectives to be achieved. The government must look at the situation of the farmers and come up with a plan. Debraj Roy, thebags of the Tata Group, said the company is committed to the 9000 litre capacity tanker lorries for the Chennai Port Trust. The Chennai Port Trust has already awarded a tender for 9000 litre capacity tanker lorries for the Chennai Port Trust in the financial year 2020-21.

The Chennai Port Trust is the largest port in India, with a cargo-handling capacity of 200 million tonnes per year. The trust is responsible for the development and operation of the Chennai Port, which is a major hub for the import and export of goods. The trust has a long history of providing services to the shipping industry, and is known for its efficient and reliable operations.

According to officials, Friday’s violence stemmed from a persistent demand to prohibit participation of non-tribal and non-indigenous people in the panchayat and municipal elections. The State Election Commission decided to defer the polls in Vijaynagar scheduled to be held on December 11 across the state.

The government order on Monday had deputed the department officials to submit a report by December 14 on the issue. The commission had decided to issue a notice to all concerned regarding the matter. A notification will be issued on December 15.

Two HBVs were arrested for attacking a police personnel, and two others for attacking a journalist. The commission has decided to issue a notice to all concerned regarding the matter. A notification will be issued on December 15.

The EU will present its 2030 climate policy, setting the world’s temperature target at 1.5°C above pre-industrial levels. The EU will present its 2030 climate policy, setting the world’s temperature target at 1.5°C above pre-industrial levels.

The EU’s revised proposal is a key test for the Biden administration, which has been urged by its European counterparts to support ambitious climate goals.

President Joe Biden, who has expressed strong support for climate action, is expected to receive the EU’s plans when he visits Brussels later this month.

With this move, the EU is setting a new benchmark for global climate ambition, and it is expected to inspire other countries to follow suit.

**The New York Times**

**2021 climate action**

The EU has already committed to reduce its greenhouse gas emissions by at least 55% by 2030 compared to 1990 levels. This target is expected to be strengthened further to meet the world’s ambition of limiting global warming to 1.5°C.

The EU’s proposal also includes a series of measures to achieve this ambitious target, including:

- A significant increase in renewable energy sources
- More efficient use of energy
- Reductions in energy-intensive industries

**European leaders**

European leaders deal strongly on 2030 climate goal

**France**

France has been hailed among the "Heroes of 2020" by the World Economic Forum. The country, and the silver star will be reserved in the formaldehyde to receive this award due to these weeks' events.

**Argentina closer to legal abortion**

People celebrate the passing of the Bill to legalize abortion, in Buenos Aires, Argentina, on Friday. Lawyers in Argentina's Lower House on Friday passed a Bill that would legalize elective abortion up to 13 weeks, a historic victory for women's rights in Latin America.

**Saudi**

Sanofi, one of the largest pharmaceutical companies in the world, has decided to delay vaccine trials until January. Sanofi and GlaxoSmithKline will delay clinical trials until January, after a disappointing phase 1 study with an experimental vaccine.

**AstraZeneca**

AstraZeneca said its coronavirus vaccine trials were "on-rails" and could come on market in January, after a disappointing trial with an experimental vaccine.

**FDA**

The FDA announced that it had identified a "substantial" response in its early-stage trials, pushing the vaccine's approval date forward to January.

**U.K.**

U.K. scientists have already identified "a robust" response in their early-stage trials, pushing the vaccine's approval date forward to January.

Morgan Stanley

India-heads

Morgan Stanley’s India-heads have announced the formation of a technology-based single registration system under the aegis of the Federation of Indian Chambers of Commerce and Industry (FICCI) to make the industry’s performance easier to track.

Morgan Stanley, which has been in India for over 25 years, is the second largest US-based investment bank here.

The move comes in the wake of recent challenges faced by the industry, including a sharp decline in investment banking, a slowdown in lending, and a surge in non-performing assets.

The new system will allow for a better understanding of the industry’s performance, including growth, new business, and capital allocation. It will also help in identifying areas for improvement and future growth opportunities.

Within the two-wheelers segment, sales of motorcycles and auto rickshaws grew by 13.4% in November, against 17.1% in October. Two-wheeler sales were at 23 lakh units in November, against 20 lakh units in October.

Real Madrid boss Zinedine Zidane says that city rival Atletico Madrid have won the game of all games after they advanced to the Champions League semi-finals.

Some rugby stars can’t remember their games, set to go court

CHRISTINE TRAFFORD

England 2023 World Cup winner Olympic journey was among the biggest moments in the history of the game.

How did breaking break it?

Around 2015, the idea that Breaking was a sport began to become more popular, with events like the Red Bull BC One World Final and other major competitions. This was driven by the dynamic rhythm, the acrobatics, the creativity, and the fusion of hip-hop and other cultural influences. The sport was gaining a following in countries like France, Russia, and Japan, where it was already popular as a street dance.

2024 Olympic Games

The 2024 Olympic Games will take place in Paris, France, from July 24 to August 9. It will be the first time that Breaking has appeared on the Olympic program. This is a significant milestone for Breaking, as it will be recognized as a sport on a global stage.

Some rugby stars can’t remember their games, set to go court

The British footballer Alun Wyn Jones (left) and the South African rugby player Siya Kolisi (right) are among the rugby players who have been unable to remember the details of some of their games.

Breaking on concrete has solidified Shubman Gill’s backfoot play but has raised other challenges

India’s left-handed opening batsman Shubman Gill has had to adapt his backfoot play to concrete pitches, which have been more common in recent years. This has led to a few challenges, but also to a more solidified backfoot play.

The teenage prodigy

Shubman Gill was an early talent in the Indian cricket team, and his backfoot play was a key aspect of his success. However, he has also faced some challenges, such as a lack of experience and the physical demands of the sport.

How does Breaking qualify as a sport?

Breaking is a form of dance that combines acrobatics, music, and performance. It is often performed on the streets, in clubs, and at competitions. It is considered a sport because it involves physical activity, skill, and a competitive element.

Metaphors and analogies

...and the Backfoot play was one of the first to take root in a modern sense. It is a key feature of the game, especially in the context of contemporary cricket.

BROKENNESS

The concept of brokenness is central to the understanding of cricket, as well as being a metaphor for life and the human condition.

VIMANA

The Vimana is an ancient Indian text that describes a vehicle for the gods. It is often associated with the concept of brokenness, as it is said to be a symbol of the impermanence of all things.

How did the sport of Breaking originate?

The origins of Breaking can be traced back to the 1980s, when it emerged as a fusion of hip-hop and other street dance styles. It gained popularity in the United States and then spread to other parts of the world.

The Break Dance

The Break Dance is a form of street dance that was popular in the United States in the 1970s and 1980s. It involves acrobatic movements and is often performed as a group activity.

Breaking and the Olympics

Breaking has been included in the Olympics since 2022, and it was a surprise to many when it was selected. The inclusion of Breaking in the Olympics has sparked a debate about the definition of sport and the role of the Olympics.

“A new concussionsubstitution rule is in place for the first time in the World Cup.”

The new rule is designed to protect players from the risk of head injuries and to enhance the safety of the game. It has been implemented in both men’s and women’s cricket, and it has been well-received by players, coaches, and fans.

The new rule requires that if a player sustains a head injury, they must leave the field of play and be replaced with a substitute. The substitute must then undergo a concussion assessment before returning to the game.

The assessment involves a series of tests to determine if the player is cleared to return to play. If the player is not cleared, they must leave the field of play and be replaced by another player.

Breaking has become a popular sport in recent years, and it has been included in the Olympic program for the first time. The new rule is a significant step forward in protecting players from head injuries and enhancing the safety of the game.
