- Long term capital appreciation
- Investment predominantly in units of ETFs/Index Funds of Nippon India Mutual Fund

°Investors should consult their financial advisors if in doubt about whether the product is suitable for them.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
36/9: World didn’t end but maybe New India needs an old lesson

To BJP from TMC, Cong and CPM: Meet the ones who have crossed over

Deepti Timiwaray

New Delhi, December 19

In a dramatic move, nine members of the Trinamool Congress (TMC) handed in their resignations to the West Bengal state government on Saturday to meet the Bharatiya Janata Party (BJP) in the state. This is the first time in recent years that TMC legislators have crossed over to other parties.

The nine MLAs who have resigned include Suvendu Adhikari, the party's former chief minister, and a few other prominent leaders.

The resignations are due before the upcoming elections in West Bengal, and the TMC has asked its supporters to vote for the BJP in the election.

The Trinamool Congress, once the dominant party in West Bengal, has been on the decline in recent years, losing ground to the BJP.

With the resignations, the BJP now appears to have a clear advantage in West Bengal, and it is expected to win the election.

The resignations also mark a significant shift in the political landscape in West Bengal, as the TMC has traditionally been the dominant party in the state.

However, the TMC has not given up hope yet and is expected to come up with a strong fight in the upcoming elections.

India’s PM Modi is expected to remain a key player in the election, and the outcome will have a significant impact on the future of Indian politics.

The resignations also highlight the growing divide between the BJP and the TMC in West Bengal, and it is expected to continue to intensify in the coming months.

The TMC has not given up hope yet and is expected to come up with a strong fight in the upcoming elections, but the BJP appears to have a clear advantage.

The resignations also mark a significant shift in the political landscape in West Bengal, as the TMC has traditionally been the dominant party in the state.

However, the TMC has not given up hope yet and is expected to come up with a strong fight in the upcoming elections.
Tablighis could not even grasp what was happening with me,” he says. “I had received her ultrasound report on the first day of my job. It was an ultrasound report of a woman for whom my wife and I were going to India, and where I learnt every aspect of the Hindi language. I had been warned by the police that people caught us.”

The Ram Lilaground, Bajrang Dal and the other organisations involved in the incident are pushing for a trial by a judge who had told them earlier in the case in 2015 that the看见 assetsthe tune of Rs 2.6 crore belonging to two accounts misused. The agency claimed that the party was misused funds. The investigation is ongoing.

The ED stated that assets of the party and each one of its district units were exposed, and the IT department was involved in the investigation. In February, the ED had arrested former chief minister Jwala Singh and his wife.

The ED claimed that it was investigating the case of the BCCI and the JKCA, and that the BCCI had received Rs 26.4 crore from the JKCA. The investigation was ongoing.

The ED alleged that the party had received Rs 26.4 crore from the JKCA, and that the party had misused the funds. The investigation was ongoing.

The ED alleged that the party had received Rs 26.4 crore from the JKCA, and that the party had misused the funds. The investigation was ongoing.

PM 2.5 set below limits at 1 stations

SANJANA BHALERAO
VARIOUS (DECEMBER 20)

PM 2.5 levels — city pollutant levels of 2.5 cm — were recorded at all the stations. The fine dust in the atmosphere as ambient air quality index(AQI) came as good.

"It’s a matter of concern for Maharashtra, as the PM 2.5 level is good," said an officer from the Environment Department.

Of the 84 Ambient Air Quality Monitoring Stations(AAQMS),15 were reported to have recorded PM 2.5 levels below 26 mg/m3 as compared to four in 2019-20.

The AQI (or air quality index) for 2019-20 for 11 monitoring stations in the city varies between 20 for 11 monitoring stations in the city. Great AQI was recorded in Borivli and Sahar.

"We should aim to reduce PM 2.5 levels to below 30 mg/m3 as compared to the national target of 50 mg/m3," said an official from the Environment Department.

Telangana seeks vultures from Maharashtra for captive breeding, Centre nod awaited

Sandeep Ashar
MUMBAI, DECEMBER 19

The government of Telangana on Saturday sought 10 white-backed vultures from Maharashtra for captive breeding after a report in the media said that the white-backed vulture was on the verge of extinction in the state.

The government is looking at initially importing 5 male and 5 female vultures for the zoo in Hyderabad and then planning to increase the number to 100 as per the recommendation of the wildlife trade national assessment committee.

As per the report, the government has also sent a proposal to the Maharashtra government to get 10 vultures from there.

The government is highly sensitive about the vulture population in the state and has been inspecting the situation on a regular basis.

Mishra said: “We have referred this to the state forest department. They have been doing regular check-ups and the report shows that the vultures are not doing well.”

As per the report, the vultures are not laying eggs and are not reproducing properly, and the government is planning to take some steps to increase the population.

“It is a matter of great concern for us as the vultures play a vital role in the ecosystem, and their extinction could lead to a number of problems,” Mishra said.

Meanwhile, the state government has also taken steps to increase the population of vultures in the state.

The government has identified 10 sites in the state for the vulture breeding programme and has already started the process of setting up the facilities.

Apart from that, the government has also started a vulture conservation programme in the state and has identified 10 sites for the vulture breeding programme.

The government has also set up a vulture conservation committee, which is working with the Wildlife Conservation Society (WCS) and the Telangana state government to increase the population of vultures in the state.

The government has also set up a vulture conservation committee, which is working with the Wildlife Conservation Society (WCS) and the Telangana state government to increase the population of vultures in the state.

**NEWLY REPORTED CASES: 83,179**

**NEWLY REPORTED DEATHS: 294**

**51% vote in JK & DDC polls in last phase; clashes in Poonch**

As voting began on Saturday for the final phase of DDC elections in the three districts of Jammu, Udhampur and Samba, fourth phase of J&K local body elections was also underway. The last two phases had witnessed violent clashes between the local government forces and the pro-freedom outfits.

**FACTORY COLLAPSE IN DELHI’S KHLAVA KILLS 4 WORKERS**

A factory that produces motorstamping work in Khlava, a Delhi suburb, collapsed Saturday, leaving four workers dead and 11 injured. The street where the factory is located was sealed by police.

**As Sonia reaches out to leaders, Rahul confident quits**

As party president Rahul Gandhi and his mother, Sonia Gandhi reach out to leaders in the party, former AICC general secretary Abhishek Singhvi said on Saturday that any decisions on procedural matters, including a possible leadership change, can't be taken until the Congress Working Committee meets on December 20.

**Airline owner sentenced to death in Haryana**

An airline owner has been sentenced to death by a Patiala sessions court after a three-judge bench of the High Court upheld the lower court’s order. The owner of Star Helicopters, Anil Singh Putto, had been convicted of murdering two Indians and a German woman at the Sher-e-Kashmir International Airport in Srinagar in 2004.

**Manipur HC in favour of NDA’s 2G scam case**

The Manipur High Court has reversed a lower court’s decision in the 2G telecom scam case, saying the court’s order was not in line with the central government’s policy on the provision of 2G spectrum.

**55% vote in J&K DDC polls in last phase; clashes in Poonch**

As polling began Saturday for the final phase of DDC elections in the three districts of Jammu, Udhampur and Samba, fourth phase of J&K local body elections was also underway. The last two phases had witnessed violent clashes between the local government forces and the pro-freedom outfits.

Shahjahanpur man held under anti-conversion law

DEEP MHUNERI Express

Sujith Kumar

The trial court in Uttar Pradesh’s Shahjahanpur on Thursday sent a 42-year-old man to judicial custody for 14 days under sections of the anti-conversion law.

The man was arrested by the police on Tuesday as he was allegedly involved in a plot to convert a married woman to another religion.

The police had registered an FIR against him under sections 376 (rape) and 506 (criminal intimidation), along with Section 3 of the Uttar Pradesh Prohibition of Unlawful Conversion of Religion Act and Section 367 of the Indian Penal Code.

Beniwal quits LS panels: 'Will march to Delhi'

The chief minister of Rashtriya Loktantrik Party (RLP), Hanuman Beniwal, has resigned from the four Lok Sabha panels he was a member of, in protest against the Centre’s decision to replace him with Hardeep Singh Puri in the Rajya Sabha.

While the RLP chief accused the Congress of trying to prevent him from contesting the upcoming assembly elections due to his rift with Madhya Pradesh chief minister Shivraj Singh Chouhan, he also alleged that his resignation was a protest against the government’s move to replace.Rajya Sabha。(HP

Gujarat CM on Love Jihad law: 'Will see when time comes'

In a recent interview, Gujarat Chief Minister Vijay Rupani had said that the state government would examine the Love Jihad law if the government of India passed it.

However, on Saturday, he clarified his stance, saying that the state government would wait and see whether the central government passes the law before taking any decision.

Rupani said that the Love Jihad law was introduced to address the issue offorced conversions, which he described as a serious problem.

He added that the state government would review the law after the central government passes it.

The Love Jihad law is aimed at preventing forced conversions, particularly of Muslim women, to Hinduism. The law makes it a criminal offence to convert someone to another religion without their consent.

The state government has been facing pressure from various quarters to implement the law, including from the Centre.

The Centre had introduced the bill in Parliament in December 2020, seeking its approval from both Houses.

The state government has not yet decided whether to implement the law once it is passed by Parliament, and is waiting for the Centre’s decision.

The Love Jihad law has been a contentious issue in India, with various states taking different approaches to address the issue offorced conversions.

The Centre has been pushing for the implementation of the law at the state level, while some states have been resisting it due to concerns about its impact on religious freedom and individual liberty.

The Centre has also faced criticism from human rights groups and civil liberties organizations, who argue that the law is discriminatory and violates the principle of equality before the law.

However, the Centre has defended the law, saying that it is necessary to address the issue offorced conversions, particularly of Muslim women, who are vulnerable to such practices.

The Centre has stated that it would implement the law only after it is passed by Parliament and approved by the state governments.

Want peace, but won't tolerate harm to India's self-respect: Rajbhar

DECEMBER 19

DEFENCE MINISTER Rajnath Singh has said that the country will counter any threats from across borders. In a statement, the minister said that the country is determined to protect its borders and its sovereignty.

"We will not tolerate any harm to India's self-respect," Singh said in his address to the nation. "We are determined to protect our borders and our sovereignty." Singh also said that India will not allow any external influence to create any instability in the country.

Singh's statement comes after the country's forces carried out a retaliatory strike in response to a terrorist attack in Uri, Jammu and Kashmir. The attack left 18 soldiers dead and several others injured.

Singh also said that the led by a Chief of Defence Staff for the first time, the Indian Army and the Indian Air Force worked in tandem to carry out the operation.

The Prime Minister, Narendra Modi, had earlier said that India will not allow any external forces to destabilise the situation in the region.

 midi : The first such event to mark the 100th anniversary of the Bhagidari Sankalp Morcha, which was founded by Arvind Kejriwal, was held in New Delhi on Friday. The event was attended by senior leaders of the party, including Kejriwal himself.

Kejriwal, who has been the face of the AAP for several years, said that the party has come a long way since its inception.

"We have come a long way since our founding in 2007," Kejriwal said. "From a small group of activists to a party with millions of members, we have come a long way." He added that the party has won several elections and has been in power in Delhi for the past five years.

Kejriwal also thanked his supporters for their support and said that the party will continue to fight for the people of Delhi.

"We have a long way to go," Kejriwal said. "But with your support, we will continue to fight for the people of Delhi." He added that the party will continue to work for the betterment of the people of Delhi.

The event was attended by several senior leaders of the party, including Arvind Kejriwal, Ashutosh, Kumar Vishwas, and Sanjay Singh.

The event was held on the occasion of the 100th anniversary of the founding of the Bhagidari Sankalp Morcha, which was founded by Arvind Kejriwal on December 19, 1970.

Kejriwal also announced that the party will celebrate its 100th anniversary in September 2021 with a grand event.

Kejriwal also announced that the party will celebrate its 100th anniversary in September 2021 with a grand event. He said that the event will be a celebration of the party's journey and its achievements.

Wistronacks VP, Apple puts firm on probation

In January, the government brought back the side-car sale with significant changes in the terms. After the 2018 crackdown on tax evasion, it became evident that the government was serious about tax collection. The side-car sale, which was introduced in 2000, allows the government to avoid paying tax on income from the sale of assets. However, it has faced challenges in recent years, including issues with administration and enforcement.

EMBA FEBRUARY 2021

At the end of the quarter, the government announced a plan to increase the side-car sale by 20%. This move was aimed at increasing tax revenue and reducing the number of defaults. The government also announced that it would be transparent in collecting the tax and that the process would be streamlined. The plan was expected to generate significant revenue for the government.

Apple has been working around the clock to fix these issues in time for the launching of its latest iPhone.

It is clear that the design and construction of the building are of high standards, as indicated by its spacious layout and modern amenities. The children and adolescents are at higher risk for reoffending, especially those who have experienced trauma. The facility is equipped with a variety of recreational activities and educational programs designed to support their emotional and social development. The success of the program depends on the dedication and support of the staff, as well as the cooperation of the community. It is an essential step towards providing a safe and secure environment for children and adolescents at risk.
The news was spreading extensively and quickly that Li Wenliang, a doctor in Wuhan, China, had died from pneumonia caused by the same new coronavirus that had caused an outbreak earlier this year. The authorities initially tried to silence the news, labeling it as fake online comments before banning social media discussions about the case. However, public interest in the story continued to grow, reaching a fever pitch by the weekend. In response to the growing public pressure, the authorities released an official statement acknowledging the death of Li Wenliang, the first known victim of the new coronavirus.

Meanwhile, the news about Li Wenliang’s death quickly spread across social media platforms, sparking a global outpouring of grief and anger. People around the world took to their phones and computers to express their condolences and to demand transparency and accountability from the authorities in China.

The authorities were under growing pressure to provide a clear and transparent account of the origins of the virus and to ensure proper care and treatment for all those infected. The International Community, including health organizations and governments, called for increased international cooperation and solidarity in the fight against the pandemic.

In China, the authorities announced plans to increase testing and treatment capacities, and to accelerate vaccine development. The government also announced a series of measures to support economic activities and to mitigate the impact of the outbreak on the country’s economy.

However, the authorities were accused of covering up the initial outbreak and of failing to take adequate measures to prevent its spread. The global community called for a more transparent and accountable approach to managing the outbreak, and for international coordination and cooperation to prevent a potential global pandemic.
First role: Vihar, Delhi, where her brother was cast as Sita.

Since Anvita Dutt’s comeback, she has fielded this question several times.

Have you come out of the character of Bulbbul yet?

Tripti Dimri, wrapped in resplendent Banarasis and an aura of enigma,Dimri had been an introvert as a child. But in college, she started modellng, eventually pushing herself to audition for films.

Her parents are farmers from Kharkharav village in Rohtak, Haryana.

She had been an introvert as a child. But in college, she started modelling, eventually pushing herself to audition for films.

She is from Kharkharav village in Rohtak, Haryana.

Feeling the pressure on her, before rolling the camera, Dutta would warn Dimri: “When I thought I’ve got it,” she recalls. That scene established her as a star.

Then, for a crucial scene, as she sat on the spacious staircase, she finally managed to get into Bulbbul’s skin.” That’s when I knew I was ready. I could turn with my next film, Sajid Ali’s Poster Boys. This bugkept him involved in extracurricular activities.

The most useful tip to play the older Bulbbul came from actress Divya Khosla Kumar.

People were keen to invest money in it, ” says Gandhi, who has since worked in many Gujarati films like Luv Nahi Love Storys (2020), which went on to win the National Award.

When Hansal Mehta asked me if I was up for playing Harshad, I was like, ‘I don’t know. ’ But he said, ‘You don’t have to worry about any money. ’”

Playing Harshad Mehta in a Gujarati play inspired him to pursue acting."

Hansal Mehta offered him the role without an audition or test. He was offered the role on Facebook.

When Gandhi had arrived for an audition at casting director Hansal Mehta’s office, he had no idea what the show was about. But he was taken aback. He says, "When Hansal Mehta offered me the role of the stockbroker Harshad Mehta, I was taken aback. But Hansal Mehta said that he had seen my work in the Gujarati play Wintek Sikri (2016), and if I didn’t need any other validation to play such a role, I would sign it."

In 2004, Gandhi made his debut in Mirzapur on SonyLIV. This bugkept him involved in extracurricular activities.

The Game is On

Actor Pratik Gandhi on growing up with theatre and the series that changed his life

First role: A Gujarati play in school, when he was in Class III. He did not receive any formal training in acting. The Game is On.

Acting was a hobby and he began to make head- lines with very little experience. Gandhi, who was offered this role without an audition or test, says he was quite keen to do a Gujarati play.

Then, for a crucial scene, as she sat on the spacious staircase, she finally managed to get into Bulbbul’s skin. “When I thought I’ve got it,” she recalls. That scene established her as a star.

Scarc Wears
A human and a mosquito take matters to court

The narrative begins on a court table, with a human and a mosquito engaging in a heated debate. The human, identified as "Your Honour," confronts the mosquito, who is represented by a lawyer. The dialogue is a cross-examination, with the human asking probing questions and the mosquito providing evasive or evocative responses. The conversation touches on themes of blaming others, deflecting responsibility, and the relentless cycle of vengeful reactions between the two opposing forces. The mosquito's responses are characterized by apparent distress, with the human repeatedly asserting their stance as the "judge." The dialogue is peppered with rhetorical questions and交付细节, suggesting a structured, adversarial setting.

Neurodiversity and Social Justice

Working towards a just world, one that honours all kinds of minds, requires us to be better and not stigmatized.

Neurodiversity

The term was introduced by a brain psychologist, interested in the area of social neuroscience and aiming to provide a neurodiversity model. The proposed model is inclusive and builds on the concept of neurodiversity, which is based on the idea that neurological differences are a natural part of human diversity. The model aims to provide a framework for understanding and valuing neurological diversity as a normal, healthy, and valuable aspect of human experience. The model is designed to challenge the traditional binary view of normal and abnormal, and to promote a more inclusive and equitable society.

Human rights on the spectrum

The biggest problem with the notion of human rights is the assumption that everyone has the same rights. This assumption is based on the idea that all humans are equal, and that everyone has the same needs and desires. However, this is not always the case. For example, some people may need more support than others, and some may have different needs.

We need to build communities of concern where people are valued and welcomed, and not stigmatized.

HERBAL"

A human being is a complex and interconnected being. They are not just individuals, but are part of a larger social and cultural fabric. The human being is a product of their environment, and their experiences are shaped by their interactions with others. The human being is also a part of a larger ecological system, and their actions have consequences for the environment.

MOSQUITOES

The mosquito is a small insect that is responsible for the transmission of various diseases. They have a complex life cycle, and their larvae live in stagnant water. The adult mosquito feeds on blood, and the female mosquito uses her proboscis to suck the blood of a host. The blood meal is essential for the development of the mosquito's eggs.

EXPOSURE TO DENGUE VIRUS

The mosquito is a vector for the dengue virus. The virus is transmitted to humans through the bite of an infected mosquito. The virus is an RNA virus, and it is highly contagious. The virus can cause a mild flu-like illness, or a severe form of the disease called dengue hemorrhagic fever. The disease is not fatal, but it can be debilitating.

Blindness and hearing loss

Kenilworth, Chicago)

The book tells us how humans aremytoppicksfortheyearare SPAPIENS: A BRIEF HISTORY OF HUMANKIND (2011, Penguin Books) by Yuval Noah Harari; and HOMODEUS: A BRIEF HISTORY OF TOMORROW (2017, Penguin Books) by Yuval Noah Harari. What they have in common is that both books tell us about our presentlivesthroughthehistorythatwe have lived. The book tells us how humans have been able to live in the best conditions from the point of view of comfort, freedom and happiness. This book has been well received by the critics and it has been praised by many people.

Moreover, Sukumaran's biography of Mahatma Gandhi is a must-read for all those who are interested in understanding the great historical figure of India.

This year, I read the book "The Liquidation: Life and Death of the 1929 Chinese-Bullion Exchange, 1935-1949" by Paing Maung Maung, which is a vivid account of one of the most important events in history. The book tells us about the struggle of the workers who were employed in the Bullion Exchange and how they fought for their rights. The book is well written and it is a great read for those who are interested in understanding the history of China and India.

In the end, I would like to say that reading books is a great way to broaden our horizons and to gain knowledge about the world. I encourage everyone to read and to keep on learning.

I read many great books in 2020. Two of my favorites were "The Shack" by William Paul Young and "The One" by John Grisham. They both were excellent reads and I would recommend them to anyone who is looking for a good book to read.

BENEFIT

I would like to recommend the book "The Shack" by William Paul Young. It is a powerful story about a man who loses his wife, his son, and his faith. He then learns to forgive and to let go of the past. The book is a great read for anyone who is looking for a story about finding hope and forgiveness.

I also read the book "The One" by John Grisham. It is a suspenseful story about a lawyer who is trying to find out who the one person is that is going to kill him. The book is well written and it is a great read for anyone who is looking for a good mystery.

I would like to say that reading books is a great way to broaden our horizons and to gain knowledge about the world. I encourage everyone to read and to keep on learning.

I am always on the lookout for new books to read. This year, I read "Atomic Habits" by James Clear. It is a book about how to form good habits and how to break bad ones. The book is well written and it is a great read for anyone who is looking for a book about personal development.

I would like to recommend the book "The Liquidation: Life and Death of the 1929 Chinese-Bullion Exchange, 1935-1949" by Paing Maung Maung. It is a vivid account of one of the most important events in history.
